**Cancer Recovery Guide** Jonathan Chamberlain, 2013-10-04 In Europe and the USA we have a 40-50% chance of getting cancer at some time in our lives. So what do you do if you are diagnosed with the disease? The harshness of orthodox treatments (surgery, radiation and chemotherapy) are well-known. Their use is widespread, but their results are not impressive. Faced with these options, informed patients are increasingly seeking out alternative or complementary strategies to take control of their own healing. This book provides an overview of them. Jonathan Chamberlain watched his wife suffer and eventually die - both from her cancer and from the direct effects of the orthodox treatments she had undergone. This experience led him on a journey in search of other methods of overcoming cancer. What he discovered stunned him. There are cures out there - dozens of them - many offering very good chances of recovery. In Cancer Recovery Guide Chamberlain presents 15 simple, practical strategies for becoming well again. These strategies are grouped in three families: those relating to the mind and the emotions (did you know stress makes cancers more aggressive?); those relating to the health of the whole body (cancer cannot survive in a tissue environment that is truly healthy); and those that focus on directly attacking the cancer tumours. The personal stories cited throughout the book testify to the curative possibilities of the strategies presented.

**Cracking the Cancer Code** Matthew Loop, 2006 Blending cutting-edge scientific research with useful messages about personal responsibility and prosperity, Cracking the Cancer Code is a groundbreaking handbook which will help you understand and apply the principals of abundant health. Dr. Matthew J. Loop provides a brief overview of the nature and causes of cancer while discussing its common treatments, then elaborates on the various external and environmental factors that contribute to its development. He emphasizes the tenets of proper nutrition, and investigates the environmental hazards that people unwittingly expose themselves to on a daily basis. Dr. Loop also examines internal factors-thoughts, feelings, and disposition-and the role they ultimately play in physical health. Shattering commonly held beliefs about the nature and causes of cancer, Dr. Loop's Cracking the Cancer Code gives back what many facing the disease feel they have lost: a sense of their own power. Prosperity and abundance, in the form of health, manifests itself from the inside out. Cracking the Cancer Code

is an easy-to-understand and comprehensive reference guide that will help anyone diagnosed with cancer discover the path to empowerment and optimal health.

**My Dog Has Cancer. What Can I Do?** Heather Beuke Diers, 2016-03-03 While documenting Nolas journey with cancer and holistic medicine, I gathered information that can now guide you through every stage of your dogs cancer. After completing hundreds of hours of research and taking a great team of veterinarians advice, I have created an economical, cancer-fighting and immune-building protocol, for any canine (or human!) fighting cancer. I explain how cancer works in the body and how to create a cancer-killing environment with, wait for it! FOOD! How you treat the body will affect the outcome this thought should empower you! Although we were able to turn a three-months-to-live diagnosis into a year of great quality of life for our girl, I believe we could have prolonged her life even longer if we had started with the protocol with which we ended shared in My Dog Has Cancer. What Can I Do? Nola had a fast-spreading, incurable cancer, osteosarcoma, which would not wait for me to catch up on my research. My mission is to save you time, so you can start fighting cancer immediately. The intent is not to persuade you to do exactly as we did; I also share our mistakes and changes I would consider, if faced with the same circumstances again. This protocol should not replace the care of your veterinarian and other necessary medical providers. Always inform them of all food and supplements in your protocol, before giving them to your pet. I am not a veterinarian, but I worked closely with my veterinarian, who practices both Western and holistic medicine, while building our protocol to treat Nolas cancer.

Mohr, PhD., 2015-12-21 The 8-Week+ Program to Reverse Cardiovascular Disease - Atherosclerosis explained. - The Mohr Formula for Heart Disease - A Unified Theory of Heart Disease - Diet do's & don'ts and food additives to avoid. - Losing Weight. - Quitting smoking - Alcohol in moderation. - Detailed diet plans and analysis. - Dietary supplements for heart disease. - Exercise and stress reduction. - The initial 8-week program + the 2-year program. - Comprehensive coverage of recent research results.

**Metastatic Breast Cancer: From Diagnosis to Complete Remission** Denice Jeffery, 2014-04 As a psychologist, Denice Jeffery helped others learn to face their greatest fears with courage and integrity. But on a dark day in 2005, she would need to learn how to apply those same support strategies to her own life. That day, she learned that she had breast cancer. Just five years later, she was told that the cancer had metastasized, spreading throughout her body. A remarkable journey began then; now, she is officially in complete remission. Here, she shares her experiences honestly and intimately.

Although she had radiation, she refused chemotherapy in favor of more natural therapies. She bravely rejected her terminal diagnosis and started on a race for her very life, hoping to unearth complementary strategies that could potentially ensure her survival. In Part One, she invites you into the life of a patient who refused to accept that there was nothing to be done. In Part Two she details the strategies, supplements, and protocols she used to overcome her cancer. Her story, from diagnosis to complete remission and how she achieved that transformation, offers hope to anyone facing cancer. Not wanting to give up and just hand over to chemotherapy, Ms Jeffery did her research and found a variety of alternatives that each had good, if largely anecdotal successes, but which made sense to her in terms of theory. She also did a voyage through her own psyche to smooth the path, and in the end, has won the day and shares it all with the reader. -Dr. Val Lewis, Noosa Heads, Queensland, Australia

*F\*ck the System, Make Love* Liana Laga, 2018-12-10 The things that are happening on planet Earth these days are more than unbearable. Everyone is aware of it, but no one knows what to do about it. This change needs to be individual. It is up to

each of us, and it is our responsibility to make this world a better place. Because it is far from being OK, and there is no evidence more convincing than today's human. But he is free to choose whether he will continue his development on the conscious level or not. Life is a game, but it is hard to play with people who don't know the rules. Just as each machine has its own instructions for use, it is the same with life and people. And they are actually very simple instructions. When each of us starts working individually, it will join us all together. This book was not written to be liked - it should be, above all, understood. God, Sex, Money, Ego, Morality, (mass)Media, Love, Meditation, Esotericism, Consciousness, Education, etc. - the real holistic view.

**In Foodture We Trust** Heinz R. Gisel, 2009-03 The distance between natural foods and what the average American family puts on their dinner table grows wider every year. In Foodture We Trust, the author explores the role that politics and profit play in over-processing all nutritional value out of foods, turning the Creator's abundant, widely varied gift into an indigestible sludge that only marginally resembles the original design. Learn the history of the genetic engineering of food; misappropriation of scientific studies to support the profits of big business; the effort to convince the American public it needs drugs created for diseases that never existed before; and legislation aimed at outlawing natural foods, processes, and remedies for the sake of protecting profits. Gain a scientific understanding of the benefits of natural foods, and learn about evidence that the bureaucracy responsible for protecting the health and nutrition of Americans is dedicated to destroying them instead. For thirty years Heinz Gisel traveled the world innovating cutting-edge medical technology and providing doctors with new instruments to treat illness. As the CEO of medical laser companies, he learned that funding disease fighting technology was difficult, but not for devices used in elective procedures, plastic surgery, aesthetic treatments and vision correction. He observed that many people seeking such treatments would be better served rejuvenating from the cellular level, starting with nutrition. But most people had either forgotten how to balance their diet with lifestyle, or they didn't know to begin with. The author invested years into nutrition research and technology development for analyzing

disease susceptibility of presumed healthy people. After opening clinics in various countries, it surfaced that many clients who thought to be healthy were at the brink of a major health challenge, which they could forestall by simple lifestyle modifications and by making conscientious food choices.

**Consensus Trance** Paul Bondarovsky, Walter H. Bowart, H. P. Albarelli Jr., Jerry E. Smith, Jüri Lina, Michael Nield, Ron Patton, Dick Sutphen, Hans Ruesch, Dani Veracity, Walter C. Vetsch, 2016-12-20 Most of us live in consensus trance - a state of consciousness produced by ideological blunting of our intellect through intensive manipulation (brainwashing), which forces us to accept false conception of reality. And the worst is that we very rarely know if the thoughts in our head are ours or have been skillfully suggested by someone or something else (e.g., subliminals hidden behind music, or flashed on a screen so fast that you don't consciously see them, or cleverly incorporated into a picture). In the entire history of man, no one has ever been brainwashed and realized, or believed, that he had been brainwashed. This book is composed of the articles which present the Big Picture of mass and individual mind control and its various techniques.

**Logically Vol. I - The great lies about medicine, energy, politics, religion and more** gaia straus, 2019-04-05 Questa raccolta si occupa dell'inganno che le persone ignare sono costrette a sperimentare in tutti i campi in cui è coinvolto il denaro e spiega il modo in cui viene attuato l'inganno. Il primo volume della raccolta, relativo alla medicina, elenca le numerose terapie esistenti per la cura reale di quasi tutte le malattie, anche quelle che Pharmacine non può curare (cancro, epatite, sclerosi multipla, ecc.). Ci sono diversi riferimenti a pratiche e medici, quasi sconosciuti al pubblico, che sono molto validi e possono facilmente fare ciò che la medicina allopatrica non è in grado di fare: cioè, ristabilire l'equilibrio naturale del corpo e riguadagnare la salute. Trattamenti di personaggi storici come Arnold Erhet, Rudolf Breuss, Max Gerson, Catherine Kousmine, Hulda Regehr Clark e molti altri vengono attentamente esaminati e spiegati. L'autore tratta allo stesso tempo l'inganno energetico e, soprattutto, l'enorme inganno sull'UFO (che rivela la verità) che sarà curato nei seguenti volumi. Ricorda che: Se è vero che le religioni sono l'oppio dei popoli, è altrettanto vero che l'ignoranza e l'ingenuità del popolo sono la cocaina dei ricchi e dei potenti.

**AIDS, South Africa, and the Politics of Knowledge** Jeremy R. Youde, 2016-03-23 Through an in-depth examination of the interactions between the South African government and the international AIDS control regime, Jeremy Youde examines not only the emergence of an epistemic community but also the development of a counter-epistemic community offering fundamentally different understandings of AIDS and radically different policy prescriptions. In addition, individuals have become influential in the crafting of the South African government's AIDS policies, despite universal condemnation from the international scientific community. This study highlights the relevance and importance of Africa to international affairs. The actions of African states call into question many of our basic assumptions and challenge us to refine our analytical framework. It is ideally suited to scholars interested in African studies, international organizations, global governance and

infectious diseases.

History Of Aids Glanz Veronika,2013-11-09 The young were once considered relatively safe from HIV/AIDS. Today, more than half of all new infections strike people under the age of 25. Girls are hit harder and younger than boys. Infant and child death rates have risen sharply, and 14 million children are now orphans because of the disease. The world's two billion children and adolescents are at the center of the HIV/AIDS crisis. And yet they are the ones who offer the greatest hope for defeating the epidemic.

**Debunking Delusions** Nathan Geffen, 2010 An insider's view of the state-supported AIDS denial of South African leaders Thabo Mbeki and Manto Shabalala-Msimang, this memoir describes a great triumph of citizen activism. The account begins with the efforts of the Treatment Action Campaign (TAC) to rouse public alarm over the puzzling intransigence of the government and the lack of drugs for people suffering from untreated AIDS. Finally, this book details how TAC ultimately succeeded on a much larger scale, as the group exposed corrupt doctors Matthias Rath and Zeblon Gwala and publicized the case of patient Andile Madondile, who had been deceived about his medicine.
