The Transition Handbook Rob Hopkins,2008-02-25 Move from feeling anxious about the oil crisis to developing a positive vision and taking traction action to create a more self-reliant existence with this ground-breaking book. We live in an oil-dependent world, and have become reliant in a very short space of time, using vast reserves of oil in the process - and without planning for when the supply is not so plentiful. Most of us avoid thinking about what happens when the oil runs out (or becomes prohibitively expensive), but the reality may not be as bad as we think. The Transition Handbook shows how the inevitable and profound changes ahead could have a positive effect. Written by permaculture expert Rob Hopkins, he

discusses the possibility of a rebirth of local communities, which will generate their own fuel, food and housing. These will encourage the development of local currencies, to keep money in the local area, and unleash a local 'skilling-up', so that people have more control over their lives. The growth in interest in the Transition model continues to be exponential. There are now more than 35 formal Transition Initiatives in the UK, including towns, cities, islands, villages and peninsulas, with more joining as the idea takes off. With little proactivity at government level, communities are taking matters into their own hands and acting locally. If your community has not yet become a Transition Initiative, this upbeat guide, filled with beautiful black and white photographs, offers you the tools to get started. The Transition Handbook is the perfect manual to guide communities, as they begin this 'energy descent' journey.

This new framework for thinking about process safety builds upon the original process safety management ideas published in the early 1990s, integrates industry lessons learned over the intervening years, utilizes applicable total quality principles (i.e., plan, do, check, act), and organizes it in a way that will be useful to all organizations - even those with relatively lower hazard activities - throughout the life-cycle of a company.
