European Weapons and Armour Ewart Oakeshott, 2012 The story of arms in Western Europe from the Renaissance to the Industrial Revolution. A treasury of information based on solid scholarship, anyone seeking a factual and vivid account of the story of arms from the Renaissance period to the Industrial Revolution will welcome this book. The author chooses as his starting-point the invasion of Italy by France in 1494, which sowed the dragon's teeth of all the successive European wars; the French invasion was to accelerate the trend towards new armaments and new methods of warfare. The author describes the development of the handgun and the pike, the use and style of staff-weapons, mace and axe and war-hammer, dagger and dirk and bayonet. He shows how armour attained its full Renaissance splendour and then suffered its sorry and inevitable decline, culminating in the Industrial Revolution, with its far-reaching effects on military armaments. Above all, he follows the long history of the sword, queen of weapons, to the late eighteenth century, when it finally ceased to form a part of a gentleman's every-day wear. Lavishly illustrated. EWART OAKESHOTT was one of the world's leading authorities on the arms and armour of medieval Europe. His other works on the subject include *Records of the Medieval Sword* and *The Sword in the Age of Chivalry*.

Weapons and Warfare Spencer C. Tucker, 2020-03-26 This work covers major weapons throughout human history, beginning with clubs and maces; through crossbows, swords, and gunpowder; up to the hypersonic railgun, lasers, and robotic weapons under development today. *Weapons and Warfare* is designed to provide students with a comprehensive and highly informative overview of weapons and their impact on the course of human history. In addition to providing basic factual information, this encyclopedia will delve into the greater historical context and significance of each weapon. The chronological organization by time period will enable readers to fully understand the evolution of weapons throughout history. The work begins with a foreword by a top scholar and a detailed introductory essay by the editor that provides an illuminating historical overview of weapons. It then offers entries on more than 650 individual weapons systems. Each entry has sources for further reading. The weapons are presented alphabetically within six time periods, ranging from the

prehistoric and ancient periods to the contemporary period. Each period has its own introduction that treats the major trends occurring in that era. In addition, 50 sidebars offer fascinating facts on various weapons. Numerous illustrations throughout the text are also included.

By the Sword Richard Cohen, 2007-12-18 “Like swordplay itself, *By the Sword* is elegant, accurate, romantic, and full of brio—the definitive study, hugely readable, of man’s most deadly art.”—Simon Winchester With a new Preface by the author Napoleon fenced. So did Shakespeare, Karl Marx, Grace Kelly, and President Truman, who as a schoolboy would practice fencing with Bess—his future wife— when the two of them returned home from school. Lincoln was a canny dueler. Ignatius Loyola challenged a man to a duel for denying Christ’s divinity (and won). Less successful, but no less enthusiastic, was Mussolini, who would tell his wife he was “off to get spaghetti,” their code to avoid alarming the children. *By the Sword* is an epic history of sword fighting—a science, an art, and, for many, a religion that began at the dawn of civilization in ancient Egypt and has been an obsession for mankind ever since. With wit and insight, Richard Cohen gives us an engrossing history of the world via the sword. Praise for *By the Sword* “Touché! While scrupulous and informed about its subject, Richard Cohen’s book is about more than swordplay. It reads at times like an alternative social history of the West.”—Sebastian Faulks “In writing *By the Sword*, [Cohen] has shown that he is as skilled with the pen as he is with the sword.”—The New York Times “Irresistible . . . extraordinary . . . vivid and hugely enjoyable.”—The Economist “A virtual encyclopedia on the subject of sword fighting.”—San Francisco Chronicle “Literate, learned, and, beg pardon, razor-sharp . . . a pleasure for practitioners, and a rewarding entertainment for the armchair swashbuckler.”—Kirkus Reviews (starred review)

Warfare in the Medieval World Brian Todd Carey,Joshua B. Allfree,John Cairns,2006-06-19 Warfare in the Medieval World explores how civilizations and cultures made war on the battlefields of the Near East and Europe in the period between the fall of Rome and the introduction of reliable gunpowder weapons during the Thirty Years War. Through an exploration of thirty-three selected battles, military historian Brian Todd Carey surveys the changing tactical relationships between the four weapon systems-heavy and light infantry and heavy and light cavalry—focusing on the evolution of shock and missile combat. This is the second part of an ambitious two-volume study of the subject. The first volume, Warfare in the Ancient World, examined the evolution of warfare from the Bronze Age to the highly organized armies of the Greeks and the Romans.

Rembrandt's Religious Prints Charles M. Rosenberg, 2017-09-11 A stunning catalogue of the seventy religious prints from the 2017 exhibition, featuring detailed background information on each piece. Rembrandt's stunning religious prints stand as evidence of the Dutch master's extraordinary skill as a technician and as a testament to his genius as a teller of tales. Here, several virtually unknown etchings, collected by the Feddersen family and now preserved for the ages at the University of Notre Dame, are made widely available in a lavishly illustrated volume. Building on the contributions of earlier Rembrandt scholars, noted art historian Charles M. Rosenberg illuminates each of the seventy religious prints through detailed background information on the artist's career as well as the historical, religious, and artistic impulses informing their creation. Readers will enjoy an impression of the earliest work, *The Circumcision* (1625-26); the famous *Hundred Guilder Print*; the enigmatic eighth state of *Christ Presented to the People*; one of a handful of examples of the very rare final posthumous state of *The Three Crosses*; and an impression and counterproof of *The Triumph of Mordecai*. From the joyous epiphany of the coming of the Messiah to the anguish of the betrayal of a father (Jacob) by his children, from choirs of angels waiting to receive the Virgin into heaven to the dog who defecates in the road by an ancient inn (*The Good Samaritan*), Rembrandt's etchings offer a window into the nature of faith, aspiration, and human experience, ranging from the ecstatically divine to the worldly and mundane. Ultimately, these prints—modest, intimate, fragile objects—are great works of art which, like all masterpieces, reward us with fresh insights and discoveries at each new encounter. “Despite many reliable catalogues of Rembrandt etchings, very few have focused on the religious content of these prints. The outstanding range of the Feddersen Collection offers an excellent occasion for closer examination of Rembrandt's development—as a printmaker but also as a spiritual devout Christian, especially evident from his thoughtful return to the same subjects across his career. Charles Rosenberg and his team at the Snite Museum deserve our thanks for fresh analysis of Rembrandt's religious prints, combined with the latest scholarship on the artist and his etchings output. Rembrandt scholars but also all lovers of the artist will want to consult this important catalogue.” —Larry Silver, author (with Shelley Perlove) of *Rembrandt's Faith: Church and Temple in the Dutch Golden Age* “Rembrandt's etchings of religious themes capture the emotional heart of their subjects through a uniquely inventive approach to both technique and content. . . . The seventy prints gathered by Jack and Alfrieda Feddersen span the full range of Rembrandt's production and offer an outstanding resource for appreciation and research. This catalogue tells the fascinating story of how the collection was formed and brings a fresh analysis to each print. Charles Rosenberg's extensive catalogue entries will be useful reading for anyone interested in the history of European art and one of its most talented practitioners, Rembrandt van Rijn.” —Stephanie Dickey, Queen's University

The Art of Sword Combat Joachim Meyer, 2016-08-31 This sixteenth-century German guide to sword fighting and combat training is a crucial source for understanding medieval swordplay techniques. Following his translation of Joachim Meyer's *The Art of Combat*, Jeffrey L. Forgeng was alerted to an earlier version of Meyer's text, discovered in Lund University Library in Sweden. The manuscript, produced in Strasbourg around 1568, is illustrated with thirty watercolor images and seven ink diagrams. The text covers combat with the longsword (hand-and-a-half sword), dusack (a one-handed practice weapon comparable to a sabre), and rapier. The manuscript's theoretical discussion of guards sheds significant light on this key feature of the historical practice, not just in relation to Meyer but in relation to medieval combat systems in general. *The Art*

of Sword Combat also offers an extensive repertoire of training drills for both the dusack and the rapier, a feature largely lacking in treatises of the period and critical to modern reconstructions of the practice. Forngeng's translation also includes a biography of Meyer, much of which has only recently come to light, as well as technical terminology and other essential information for understanding and contextualizing the work.

The Light of Italy Jane Stevenson, 2021-10-14 The story of the Renaissance city and palace of Urbino, and the life of the extraordinary man who created it: Federico da Montefeltro. 'Painstakingly researched and yet unfailingly readable' Ross King 'An insight into one of Renaissance Italy's most glamorous courts' Catherine Fletcher 'The perfect tour guide to the past' Literary Review 'A fabulous merging of seductive design with bravura scholarship' Alexandra Harris 'A superior study... Packed with detail' TLS The one-eyed mercenary soldier Federico da Montefeltro, lord of Urbino between 1444 and 1482, was one of the most successful condottiere of the Italian Renaissance: renowned humanist, patron of the artist Piero della Francesca, and creator of one of the most celebrated libraries in Italy outside the Vatican. From 1460 until her early death in 1472 he was married to Battista, of the formidable Sforza family, their partnership apparently blissful. In the fine palace he built overlooking Urbino, Federico assembled a court regarded by many as representing a high point of Renaissance culture. For Baldassare Castiglione, Federico was la luce dell'Italia - 'the light of Italy'. Jane Stevenson's affectionate account of Urbino's flowering and decline casts revelatory light on patronage, politics and humanism in fifteenth-century Italy. As well as recounting the gripping stories of Federico and his Montefeltro and della Rovere successors, Stevenson considers in details Federico's cultural legacy - investigating the palace itself, the splendours of the ducal library, and his other architectural projects in Gubbio and elsewhere.

Raw Generals and Green Soldiers Pádraig Lenihan, 2023-08-21 The eleven years of conflict that engulfed Ireland (1641-53) can be seen as a drama in three acts, each of which drew Ireland into progressively closer alignment with the Civil Wars (1642-52) in the other two Stuart kingdoms, Scotland and England. The first act in the Wars of Religion in Ireland (1641-53) began in October 1641 with a rising in Ulster and shuddered to a halt in September 1643 when the insurgents, now embodied as the Confederate Catholics, agreed a ceasefire with Charles I's representative in Ireland. This study is confined to Act One to manage its sheer scope and scale. Not a single county in Ireland was unscathed by war and in summer 1642 there were more men under arms than there ever had been or would be again. Moreover, Act One was singularly nasty. Insurgent slaughter of Protestant settlers in the winter of 1641-42 quickly gained canonical status. English and Scots armies routinely massacred natives in the spring and summer that followed. After their uprising failed, the Irish in 1642 were attacked by English and Scottish armies that were bigger, in aggregate, than any before or since. And that includes the armies of Elizabeth I, Oliver Cromwell and William of Orange. Lacking munitions, forced to disperse their strength, and usually outfought in open battle, the Confederate Catholics pushed back in war-as-process and food-fights in which castles

dominating a chequerboard of hinterlands jostled with hostile neighbors. The Catholics were winning this small war when the music stopped in 1643. This is a study of the Catholic armies in Act One through a succinct narrative which reveals underlying pattern and purpose in what would otherwise be one apparently random battle, siege, skirmish, massacre, and cattle raid after another, devoid of form or meaning. The narrative focuses in and out, from the strategic through the operational down to the tactical and what happened in a particular place on a given day. The narrative also shifts from the southern or Leinster/Munster theater to the northern or Connacht/Ulster theater. Meaning is disclosed through narrative in which the strengths and shortcomings of the Irish armies become clearer. The quotation in the title sets up two such shortcomings, of leaders and led. One reason why the Catholics lost so many battles may be that their generals fought battles when they needn't have, showed a fatal preference for the all-out attack, and did not always deploy in a manner that let their army's components, pike, shot and horse act in mutual support. Another reason may be that the rankers were less invested in the Catholic cause than their officers. But the establishing quotation is followed by a question mark. Perhaps the real question to be asked is how the Catholic armies achieved so much rather than why they failed.
