Operations Management Alison Bettley, David Mayle, Tarek Tantoush, 2005-11-18 `This reader is an outstanding piece of work. It captures the essence of operations management by providing an interesting and sometimes provoking set of readings. It also provides an excellent review of the topic. Its approach to operations management is both topical and comprehensive. The editors have done an outstanding job of including many of the significant recent developments in the area, particularly in the technology and operations strategy areas' - Nigel Slack, Professor of Operations Strategy, Warwick University How have consumer demands, environmental and ethical concerns, the advancement of technology and the globalization of business changed and redefined operations management? This Reader explains new and emerging areas and re-evaluates some important mainstream issues. Leading specialists contribute their experiences and thoughts on four key areas. They are: - Strategy - makes the case for regarding operations as a strategic asset in their own right - Methodology - examines the myriad of approaches taken towards process improvement - Technology - asks why problems associated with the implementation of technology continue to dog organisations - Human Issues - repositions human input to the top of the operational agenda

Operations Management Unleashed: Streamlining Efficiency and Innovation Dr. Garima Mathura, 2023-08-17 Unleash the potential of operations management with strategies to streamline efficiency and foster innovation. Focused Operations Management Boaz Ronen, Shimeon Pass, 2008-03-11 Focused Operations Management shows how to do much more with existing resources in terms of throughput, response time and quality. It provides a system view and will touch upon performance measures, operations management, quality, cost-accounting, pricing, and above all, value creation and value enhancement.

The Encyclopedia of Operations Management Arthur V. Hill, 2012 This is the perfect field manual for every supply chain or operations management practitioner and student. The field's only single-volume reference, it's uniquely convenient and uniquely affordable. With nearly 1,500 well-organized definitions, it can help students quickly map all areas of operations and supply chain management, and prepare for case discussions, exams, and job interviews. For instructors, it serves as an invaluable desk reference and teaching aid that goes far beyond typical dictionaries. For working managers, it offers a shared language, with insights for improving any process and supporting any training program. It thoroughly covers: accounting, customer service, distribution, e-business, economics, finance, forecasting, human resources, industrial engineering, industrial relations, inventory management, healthcare management, Lean Sigma/Six Sigma, lean thinking, logistics, maintenance engineering, management information systems, marketing/sales, new product development,

operations research, organizational behavior/management, personal time management, production planning and control, purchasing, reliability engineering, quality management, service management, simulation, statistics, strategic management, systems engineering, supply and supply chain management, theory of constraints, transportation, and warehousing. Multiple figures, graphs, equations, Excel formulas, VBA scripts, and references support both learning and application. ... this work should be useful as a desk reference for operations management faculty and practitioners, and it would be highly valuable for undergraduates learning the basic concepts and terminology of the field. Advances in Business, Management and Entrepreneurship Ratih Hurriyati, Benny Tjahjono, Ade Gafar Abdullah, Sulastri, Lisnawati, 2020-12-07 The GCBME Book Series aims to promote the quality and methodical reach of the Global Conference on Business Management & Entrepreneurship, which is intended as a high-quality scientific contribution to the science of business management and entrepreneurship. The Contributions are expected to be the main reference articles on the topic of each book and have been subject to a strict peer review process conducted by experts in the fields. The conference provided opportunities for the delegates to exchange new ideas and implementation of experiences, to establish business or research connections and to find Global Partners for future collaboration. The conference and resulting volume in the book series is expected to be held and appear annually. The year 2019 theme of book and conference is Transforming Sustainable Business In The Era Of Society 5.0. The ultimate goal of GCBME is to provide a medium forum for educators, researchers, scholars, managers, graduate students and professional business persons from the diverse cultural backgrounds, to present and discuss their research, knowledge and innovation within the fields of business, management and entrepreneurship. The GCBME conferences cover major thematic groups, yet opens to other relevant topics: Organizational Behavior, Innovation, Marketing Management, Financial Management and Accounting, Strategic Management, Entrepreneurship and Green Business.

Production Systems and Supply Chain Management in Emerging Countries: Best Practices Gonzalo Mejía, Nubia Velasco, 2012-05-31 The book presents several highly selected cases in emerging countries where the production-logistics systems have been optimized or improved with the support of mathematical models. The book contains a selection of papers from the 5th International Conference on Production Research (ICPR) Americas 2010 held on July 21-23 in Bogotá, Colombia. The main topic of the conference was “Technologies in Logistics and Manufacturing for Small and Medium Enterprises” which is perfectly aligned with the realities of emerging countries. The book presents methodologies and case studies related to a wide variety of production/logistics systems such as dairy production, auto parts, steel and iron production, and financial services. It is focused but not limited to Small/Medium Enterprises.

Industrial Engineering and Operations Management João Carlos Gonçalves dos Reis, Francisco Gaudêncio Mendonça

Freires, Milton Vieira Junior, 2024-01-21 This proceedings volume gathers selected, blinded peer-reviewed contributions presented at the XXIX International Joint Conference on Industrial Engineering and Operations Management (IJCIEOM), held in Lisbon, Portugal, from June 28th to 30th, 2023. This volume focuses especially on the applications of Industrial Engineering and Operations Management for research and practice. It includes relevant information for academics since most of the chapters focus on real-world case studies and systematic reviews. It also provides valuable insights for professionals in the industrial sector by presenting solutions to complex industrial challenges. The 2023 iteration of the IJCIEOM conference had the theme Developing resilience in Industrial Engineering and Operations Management and aimed to analyze the resilience of supply chains in the post-COVID-19 era. The works published in this volume focus on how Digital Transformation (DX) and Artificial Intelligence (AI) have made the manufacturing and service industry more resistant to VUCA elements (i.e., volatile, uncertain, complex, and ambiguous). Regarding DX and AI, the research specifically focused on supply chain management, project management, and Industry 4.0. Other studies explore how industrial engineering incorporated innovative and technological concepts into service and product operations. Overall, this volume provides a valuable resource for researchers and practitioners alike as it presents numerous relevant contributions in identifying new challenges and opportunities for industrial engineering and operations management. This conference was sponsored by renowned international industry engineering associations, particularly the American Society for Engineering Management (ASEM), the Institute of Industrial & Systems Engineers (IISE), and the Asociación para el Desarrollo de la Ingeniería de Organización (ADINGOR).

Proceedings of the 1st AAGBS International Conference on Business Management 2014 (AiCoBM 2014) Jaafar Pyeman, Wan Edura Wan Rashid, Azlina Hanif, Syed Jamal Abdul Nasir Syed Mohamad, Peck Leong Tan, 2015-07-30 The proceedings of the 1st AAGBS International Conference on Business Management 2014 (AiCoBM 2014), held in Penang, Malaysia, gathers 57 refereed papers. They cover areas relating to various aspects of business management and reflect the conference's three main themes (management and marketing, economics and finance, and entrepreneurship) and present original papers contributed by researchers, scholars, professionals and postgraduate students. They address a range of disciplines that encompass each of the main themes. Using basic and applied research findings together with case studies they provide valuable information on current research trends in business management, international business, marketing, economics, finance, Islamic finance and economics, and entrepreneurship.

Handbook of Theories for Purchasing, Supply Chain and Management Research Tate, Wendy L., Ellram, Lisa M., Bals, Lydia, 2022-05-13 This clear and coherent book introduces agent-based modelling (ABM) to those who are not familiar with nor have been previously exposed to computational simulation. Featuring examples, cases and models, the book illustrates how ABM can, and should, be considered as a useful approach and technique for the study of management and

organisational systems.

Paradigm shifts in Business Delivery Innovative Management Practices St martin Institute of Business Management,

International Operations Management Alberto F. De Toni, 2016-04-22 International Operations Management: Lessons in Global Business uses a fascinating selection of case studies researched during the 'International Operations Management Project', sponsored by the European Commission, to produce a valuable view of businesses in Western and Eastern traditions. Ranging from China Post and Flextronics International (Singapore) to Electrolux, Ford, and GlaxoSmithKline, the studies link conceptual and practical approaches in five areas: international operations management strategy, sourcing and manufacturing, new product development, logistics, and networked organisations. Throughout, the authors compare the Western and Eastern approaches to business, and introduce theory to clarify the comparison and the real consequences of internationalisation. With its balance of theoretical and applied content, this volume, created from an exciting collaboration between universities and schools of management in Europe and China, serves as both a primary and supplementary source for higher level students and educators, and as a worthwhile read for interested practitioners.
