The 24-Hour Soup Kitchen Stephen Henderson,2020-04-07 It was when traveling on assignment in India that journalist Stephen Henderson first learned of soup kitchens operated by Sikh houses of worship (or gurudwaras). After volunteering for a week at the Gurudwara Bangla Sahib in Delhi—which feeds 20,000 men, women, and children every day—Henderson became curious to research global gastrophilanthropy, or the very different ways in which hungry people are served free meals around the world. When newspaper and magazine work dispatched him to places across America and abroad, Henderson would add days to his itineraries to learn about local customs of charitable cookery. This intriguing series of field reports reveals the clamor, chaos, and compassion of kitchens in places such as Iran, Israel, and South Korea, as well as those in Austin, Los Angeles and Pittsburgh. While the recipes, culinary methods, and clientele may vary, all the soul-stirring experiences share a common theme: a great way to show love to the needy is through the gift of food. Written with a huge heart, and an even bigger appetite, these chapters—sad and funny, sometimes both—may inspire you to embark on your own acts of gastrophilanthropy. Now released in paperback, Stephen Henderson's revised edition adds two new chapters reflecting on the COVID-19 pandemic and its effect on food insecurity and homelessness. His latest perspective demonstrates even further the necessity for all to step up in any way they can. After all, someone, somewhere, is always hungry.

Chronicle of a Death Foretold Gabriel Garcia Marquez,2014-03-06 *Chronicle of a Death Foretold* is a compelling, moving story exploring injustice and mob hysteria by the Nobel Laureate Gabriel García Márquez, author of *One Hundred Years of Solitude* and *Love in the Time of Cholera*. 'On the day they were going to kill him, Santiago Nasar got up at five-thirty in the morning to wait for the boat the bishop was coming on' Santiago Nasar is brutally murdered in a small town by two brothers. All the townspeople knew it was going to happen - including the victim. But nobody did anything to prevent the killing. Twenty seven years later, a man arrives in town to try and piece together the truth from the contradictory testimonies of the townsfolk. To at last understand what happened to Santiago, and why. . . 'A masterpiece' Evening Standard 'A work of high explosiveness - the proper stuff of Nobel prizes. An exceptional novel' The Times 'Brilliant writer, brilliant book' Guardian

Life's Solution Simon Conway Morris,2003-09-04 The assassin's bullet misses, the Archduke's carriage moves forward, and a catastrophic war is avoided. So too with the history of life. Re-run the tape of life, as Stephen J. Gould claimed, and the outcome must be entirely different: an alien world, without humans and maybe not even intelligence. The history of life is littered with accidents: any twist or turn may lead to a completely different world. Now this view is being challenged. Simon Conway Morris explores the evidence demonstrating life's almost eerie ability to navigate to a single solution, repeatedly. Eyes, brains, tools, even culture: all are very much on the cards. So if these are all evolutionary inevitabilities, where are our counterparts across the galaxy? The tape of life can only run on a suitable planet, and it seems that such Earth-like planets may be much rarer than hoped. Inevitable humans, yes, but in a lonely Universe.
