**The Heidi Chronicles and Other Plays** Wendy Wasserstein,1991 The graduating seniors of a Seven Sisters college, trying to decide whether to pattern themselves after Katharine Hepburn or Emily Dickinson. Two young women besieged by the demands of mothers, lovers, and careers--not to mention a highly persistent telephone answering machine--as they struggle to have it all. A brilliant feminist art historian trying to keep her bearings and her sense of humor on the elevator ride from the radical sixties to the heartless eighties.

Near & Far Heidi Swanson,2015-09-15 Known for combining natural foods recipes with evocative, artful photography, New York Times bestselling author Heidi Swanson circled the globe to create this mouthwatering assortment of 120 vegetarian dishes. In this deeply personal collection drawn from her well-worn recipe journals, Heidi describes the fragrance of flatbreads hot off a Marrakech griddle, soba noodles and feather-light tempura in Tokyo, and the taste of wild-picked greens from the Puglian coast. Recipes such as Fennel Stew, Carrot & Sake Salad, Watermelon Radish Soup, Brown Butter Tortelli, and Saffron Tagine use healthy, whole foods ingredients and approachable techniques, and photographs taken in Morocco, Japan, Italy, France, and India, as well as back home in Heidi's kitchen, reveal the places both near and far that inspire her warm, nourishing cooking.

**The Oxford Guide to Plays** Michael Patterson,2007 Anyone with an academic, professional, amateur, or recreational interest in the theatre is likely to want to look up details of particular plays sometimes - perhaps to check on the author, or on when they were first performed, or perhaps to see how many characters they have, and whether or not they would be suitable for their theatre company or drama group to perform. The Oxford Dictionary of Plays provides essential information on the 1000 best-known, best-loved, and most important plays in world theatre. Each entry includes details of title, author, date of composition, date of first performance, genre, setting, and the composition of the cast, and more. A synopsis of the plot and a brief commentary, perhaps on the context of the play, or the reasons for its enduring popularity, follow. Around 80 of the most significant plays - from The Oresteia to Waiting for Godot - are dealt with in more detail. Genres covered include: burlesque, comedy, farce, historical drama, kabuki, masque, melodrama, morality play, mystery play, No, romantic comedy, tragicomedy, satire, and tragedy. An index of characters enables the reader to locate favourite characters, and trace the trajectory of major historical and legendary characters - such as Iphigenia - through world drama, including in plays that do

not have entries in the Dictionary. An index of playwrights, with dates, allows the reader to find all the plays included by a particular author.

*The Next Generation of Scientists in Africa* Beaudry, Catherine, Mouton, Johann, 2018-11-23 Young scientists are a powerful resource for change and sustainable development, as they drive innovation and knowledge creation. However, comparable findings on young scientists in various countries, especially in Africa and developing regions, are generally sparse. Therefore, empirical knowledge on the state of early-career scientists is critical in order to address current challenges faced by those scientists in Africa. This book reports on the main findings of a three-and-a-half-year international project in order to assist its readers in better understanding the African research system in general, and more specifically its young scientists. The first part of the book provides background on the state of science in Africa, and bibliometric findings concerning Africa's scientific production and networks, for the period 2005 to 2015. The second part of the book combines the findings of a large-scale, quantitative survey and more than 200 qualitative interviews to provide a detailed profile of young scientists and the barriers they face in terms of five aspects of their careers: research output; funding; mobility; collaboration; and mentoring. In each case, field and gender differences are also taken into account. The last part of the book comprises conclusions and recommendations to relevant policy- and decision-makers on desirable changes to current research systems in Africa.

Performing Gender Violence B. Ozieblo, N. Hernando-Real, 2012-01-02 Violence against women in plays by women has earned little mention. This revolutionary collection fills that gap, focusing on plays by American women dramatists, written in the last thirty years, that deal with different forms of gender violence. Each author discusses specific manifestations of violence in carefully selected plays: psychological, familial, war-time, and social injustice. This book encompasses the theatrical devices used to represent violence on the stage in an age of virtual, immediate reality as much as the problematics of gender violence in modern society.

News from Germany Heidi J. S. Tworek, 2019-03-11 Winner of the Barclay Book Prize, German Studies Association Winner of the Gomory Prize in Business History, American Historical Association and the Alfred P. Sloan Foundation Winner of the Fraenkel Prize, Wiener Library for the Study of Holocaust and Genocide Honorable Mention, European Studies Book Award, Council for European Studies To control information is to control the world. This innovative history reveals how, across two devastating wars, Germany attempted to build a powerful communication empire—and how the Nazis manipulated the news to rise to dominance in Europe and further their global agenda. Information warfare may seem like a new feature of our contemporary digital world. But it was just as crucial a century ago, when the great powers competed to control and expand their empires. In *News from Germany*, Heidi Tworek uncovers how Germans fought to regulate information at home and used the innovation of wireless technology to magnify their power abroad. Tworek reveals how for nearly fifty years, across three different political regimes, Germany tried to control world communications—and nearly succeeded. From the turn of the twentieth century, German political and business elites worried that their British and French rivals dominated global news networks. Many Germans even blamed foreign media for Germany's defeat in World War I. The key to the British and French advantage was their news agencies—companies whose power over the content and distribution of news was arguably greater than that wielded by Google or Facebook today. Communications networks became a crucial battleground for interwar domestic democracy and international influence everywhere from Latin America to East Asia. Imperial leaders, and their Weimar and Nazi successors, nurtured wireless technology to make news from Germany a major source of information across the globe. The Nazi mastery of global propaganda by the 1930s was built on decades of

Germany's obsession with the news. News from Germany is not a story about Germany alone. It reveals how news became a form of international power and how communications changed the course of history.

**Western Union and the Creation of the American Corporate Order, 1845-1893** Joshua D. Wolff, 2013-06-28 This work chronicles the rise of Western Union Telegraph from its origins in the helter-skelter ferment of antebellum capitalism to its apogee as the first corporation to monopolize an industry on a national scale. The battles that raged over Western Union's monopoly on nineteenth-century American telecommunications - in Congress, in courts, and in the press - illuminate the fierce tensions over the rising power of corporations after the Civil War and the reshaping of American political economy. The telegraph debate reveals that what we understand as the normative relationship between private capital and public interest is the product of a historical process that was neither inevitable nor uncontested. Western Union's monopoly was not the result of market logic or a managerial revolution, but the conscious creation of entrepreneurs protecting their investments. In the process, these entrepreneurs elevated economic liberalism above traditional republican principles of public interest and helped create a new corporate order.

*The Sisters Rosensweig* Wendy Wasserstein, 1996 The sisters Rosensweig are three extraordinary Brooklyn-born Jewish women. Sara lives an ostensibly happy, man-free life in London with her intelligent daughter, Tess. Pfeni is an eccentric travel writer who pursues an unsatisfactory relationship with Geoffrey, a bisexual theatre director. And Gorgeous has the perfect husband and family in Massachusetts, where she pursues a 'funsy' career as a radio agony aunt. When they meet up at Sara's home in Holland Park reawakened familial bonds cause each woman to confront her past and her future.

*The Soulweaver* Heidi Catherine, 2020-09-05 Long before her time was supposed to be up, Hannah finds herself in the Loom, the place where souls are woven into the life they must live next. Except Hannah wasn't ready to leave her old life. Nor was she ready to leave Matthew? As the weaving takes place, Hannah fights to hold onto a part of herself, knowing it's the only way to solve the mystery of her death. Her memories are her link to the boy who tried to save her. Her last hope of ever finding him again. In a faraway city, Lin is born. As she grows, her dreams become haunted by faces of people she's never met. Of a boy her soul aches to be with again. But she also has a life of her own. And when a stranger called Reinier seeks her out, her heart is torn in two. Lin must decide if she follows the thread that's tugging her toward the life she shouldn't remember, or if she weaves herself a new life.

*Single by Chance, Mothers by Choice: How Women are Choosing Parenthood without Marriage and Creating the New American Family* Rosanna Hertz, 2006-10-01 A remarkable number of women today are taking the daunting step of having children outside of marriage. In *Single By Chance, Mothers By Choice*, Rosanna Hertz offers the first full-scale account of this fast-growing phenomenon, revealing why these middle class women took this unorthodox path and how they have managed to make single parenthood work for them. Hertz interviewed 65 women--ranging from physicians and financial

analysts to social workers, teachers, and secretaries--women who speak candidly about how they manage their lives and families as single mothers. What Hertz discovers are not ideologues but reluctant revolutionaries, women who--whether straight or gay--struggle to conform to the conventional definitions of mother, child, and family. Having tossed out the rulebook in order to become mothers, they nonetheless adhere to time-honored rules about child-rearing. As they tell their stories, they shed light on their paths to motherhood, describing how they summoned up the courage to pursue their dream, how they broke the news to parents, siblings, friends, and co-workers, how they went about buying sperm from fertility banks or adopting children of different races. They recount how their personal and social histories intersected to enable them to pursue their dream of motherhood, and how they navigate daily life. What does it mean to be single in terms of romance and parenting? How do women juggle earning a paycheck with parenting? What creative ways have women devised to shore up these families? How do they incorporate men into their child-centered families? This book provides concrete, informative answers to all these questions. A unique window on the future of the family, this book offers a gold mine of insight and reassurance for any woman contemplating this rewarding if unconventional step.

**2016: the Campaign Chronicles** JD Foster, 2017-01-19 How did Donald Trump, a man with zero direct political experience and no particular affiliation to either political party go in the span of a two-year campaign from preposterous aspirant to President-elect of the United States? It will likely take years, if not decades, before a confident consensus develops, but formulating an answer begins with chronicling the key events in the campaign, in the country, and sometimes in the wider world as they happened. This book is an attempt to provide such a chronicle, by no means the last word but perhaps a useful and entertaining first word toward answering the question, What the heck?
