*Sexual Harassment in the Indian Bureaucracy* Arundhati Bhattacharyya,2017-01-06 The Indian bureaucracy provides the framework that ensures the successful running of a democratic country, continuing the heritage of the Indian Civil Service during British colonial rule. However, patriarchy has continued to serve as the norm in these institutions, with the sexual harassment of bureaucrats representing a particular challenge. Sexual harassment in the workplace is a hard reality, but systematic studies of this phenomenon are few and far between. In this regard, bureaucracy is an area which needs particular academic analysis. This book addresses this research gap and studies the relevance of socio-economic factors leading to sexual harassment in the Indian bureaucracy in Kolkata, Delhi and Bengaluru. It also explores the levels and forms of this harassment, the gender and position of the harasser, and the level of filing complaints by the victims. Moreover, the reasons behind the silence of the victims regarding filing complaints are also analysed. As such, it is a revealing and illuminating analysis of the hitherto unexplored area of the dynamics of one facet of gender relationships in the Indian bureaucracy. The book will be useful to scholars in the fields of anthropology, law, sociology, economics, social work, political science, gender studies, and development studies, as well as other social sciences.

**Handbook of Research on Family Business** Panikkos Poutziouris, Kosmas Smyrniotis, Sanjay Goel, 2013-01-01 'This is a very business-like book in its approach. It has an impressive global reach in its authorship, focal areas and use of evidence; it hits all the major practical challenges of family firms in a spirit that is fresh and current; and it deals with the cutting-edge themes and issues that are uppermost in the minds of owners, executives, advisors and researchers in the field.' - Nigel Nicholson, London Business School, author, *Managing the Human Animal*, *Family Wars* and *The 'I' of Leadership* Acclaim for the first edition: 'The authors have taken a lot of pain in putting this handbook together. As the name indicates, this is an excellent handbook for researchers.' - Global Business Review 'The Handbook of Research on Family Business has collected and synthesized a broad variety of topics by notable researchers who share a common dedication to family business research. This Handbook provides a comprehensive treatment that advances the frontiers of knowledge in family business, provoking valuable thoughts and discussion. The Handbook will serve as both an authoritative and comprehensive reference work for researchers investigating family enterprises.' - A. Bakr Ibrahim, Concordia University, Montreal, Canada 'Although family business research is a young discipline it is both necessary and important. For the wellbeing and future development of our society the survival of prosperous and passionate family business entrepreneurs is indispensable. In order to help the families in business to better understand how to succeed with their enterprises we need qualified and updated research. This book is the answer!' - Hans-Jacob Bonnier, Bonnier Business Press Group, Sweden and 6th Generation Chairman of the Family Business Network - International 'This Handbook is a unique compilation of the most important and the best recent family business research. The field has grown so rapidly that this effort will be a mark for the research to follow. The Handbook of

Research on Family Business will be the reference for scholars in family business for many years to come. It will also stimulate new ideas in research.' - John L. Ward, IMD, Switzerland and Northwestern University, US During the previous decade, the multi-disciplinary field of family business has advanced significantly in terms of advances in theory, development of sophisticated empirical instruments, systematic measurement of family business activity, use of alternative research methodologies and deployment of robust tools of analysis. This second edition of the Handbook of Research on Family Business presents important research and conceptual developments across a broad range of topics. The contributors - notable researchers in the field - explore the frontiers of knowledge in family business entrepreneurship and stimulate critical thinking, enriching the repository of theoretical frameworks and methodologies. The Handbook takes a systematic and rigorous approach by providing in-depth insights into the dynamics of family business, its context and the significant role of stakeholders. Ultimately, this scholarly compendium of extant family business papers is an invaluable resource for researchers, educators, family business consultants, family business owner-managers and students.

Family Firms and Institutional Contexts Giorgia Maria D'Allura,Andrea Colli,Sanjay Goel, Family firms represent over 90 per cent of businesses globally, and play a significant role in the economies of many nations. This innovative book takes an interdisciplinary, cross-national approach to the study of family firms as institutions as well as the relationship between family firms and external institutions. In doing so, it demonstrates the impact of these interactions both on the firms and institutions themselves and on the wider economic context. Featuring in-depth analysis of original research, chapters take both theoretical and empirical approaches to explore the family firm as an organization, and include several key case studies. At a micro level, the social and cultural unit of the family and its behaviour is investigated, and at a macro level, external institutional contexts are examined to explain and theorise firms' behaviours and strategies, covering areas such as innovation, competitiveness and reputation. The book provides important conceptual insights and critical empirical research, as well as ideas for future research agendas. Family Firms and Institutional Contexts will be a critical read for scholars and doctoral students in business and management, particularly those with an interest in family firms. Policymakers and practitioners in these areas will also find its insights of practical relevance--

**Dynamics in Logistics** Herbert Kotzab,Jürgen Pannek,Klaus-Dieter Thoben,2015-12-21 This contributed volume brings together research papers presented at the 4th International Conference on Dynamics in Logistics, held in Bremen, Germany in February 2014. The conference focused on the identification, analysis and description of the dynamics of logistics processes and networks. Topics covered range from the modeling and planning of processes, to innovative methods like autonomous control and knowledge management, to the latest technologies provided by radio frequency identification, mobile communication, and networking. The growing dynamic poses wholly new challenges: logistics processes and networks must be(come) able to rapidly and flexibly adapt to constantly changing conditions. The book primarily addresses the needs of researchers and practitioners from the field of logistics, but will also be beneficial for graduate students.

*Capacity Building in National Environmental Policy* Helmut Weidner,Martin Jänicke,2013-03-09 This book is the second collection of systematic case studies describing national environmental policies in 17 countries in terms of capacity building (see Appen dix). The OECD defines environmental capacity building as a society's ability to identify and solve environmental problems. While various institutions, including UNEP, FAO, World Bank and OECD, have hitherto used the terms environmental capacity and capacity building almost exclusively with reference to developing countries, we have extended the concepts to industrialized countries, as well. The first collection, edited by Martin Janicke, Helge Joergens (both Free University Berlin) and Helmut Weidner (Social Science Research Center Berlin), was published in 1997 under the title *National Environmental Policies - A Comparative Study of Capacity-Building* (Berlin, etc. : Springer Verlag). It included 13 studies of countries. As in the first volume, chapter I presents the conceptual framework underlying the national case studies. It is a slightly shorter version of the corresponding chapter in volume I. The design of all case studies in the two volumes is largely congruent with this conceptual framework. Although the various sections of the studies do not always have identical

titles and subtitles, the central elements of the capacity-building approach have been applied in all cases.
