The Business Year: Saudi Arabia 2024 , We conducted more than 200 face-to-face interviews with Saudi Arabia's business leaders and government representatives in preparation for this special 10th anniversary edition of The Business Year in Saudi Arabia. In partnership with the Federation of Saudi Chambers, we have compiled a comprehensive analysis of the burgeoning trends defining the economy of Saudi Arabia, with a strong focus on Vision 2030, the Gulf nation's transformative blueprint for economic diversification. This over 300-page publication features interviews from every major sector of the economy, as well as a range of articles and analysis.

Special Report: The Future of Finance in Saudi Arabia , This 92-page special report, featuring interviews, news, and analysis, navigates the major challenges, prospects, and trends that will guide the sector over the coming years. It features insights from the leading decision makers in the sector and seeks to be a reference for those wanting impactful information on investment opportunities in Saudi Arabia.

The Business Year: Saudi Arabia 2022/23 , The Business Year conducted more than 200 face-to-face interviews with leading investors, business leaders, and government representatives from all key sectors driving the country's economic growth for this 336-page publication. In partnership with the Federation of the Saudi Chambers, we have created a comprehensive analysis of the trends defining the economy of the Kingdom, focusing on its resilience and the efforts of the government to build a new image and position the country as a leading player both at a regional and international level.

Saudi, Inc. Ellen R Wald,2018-04-03 The Saudi Royal family and Aramco leadership are, and almost always have been, motivated by ambitions of longterm strength and profit. They use Islamic laws, Wahhabi ideology, gender discrimination, and public beheadings to maintain stability and their own power. Underneath the thobes and abayas and behind the religious fanaticism and illiberalism lies a most sophisticated and ruthless enterprise. Today, that enterprise is poised to pull off the

biggest IPO in history. Over more than a century, fed by ambition and oil wealth, al Saud has come from nothing to rule as absolute monarchs, a contrast with the world around them and modernity itself. The story starts with Saudi Arabia's founder, Abdul Aziz, a lonely refugee embarking on a daring gambit to reconquer his family's ancestral home—the mudwalled city of Riyadh. It takes readers almost to present day, when the multinational family business has made al Saud the wealthiest family in the world and on the cusp of a new transformation. Now al Saud and its family business, Aramco, are embarking on their most ambitious move: taking the company public.

The Report: Saudi Arabia 2018 , Key initiatives include a privatisation programme which would see the divestment of a number of state-owned giants, such as the partial listing of Aramco, the creation of the world's largest sovereign wealth fund and the increased participation of women in the job market. The Kingdom has played a key role too on the international stage in 2017, becoming the first country to host President Trump, a visit which resulted in renewed trade and investment commitments on both sides. Meanwhile the country's importance as a trading hub continues to grow thanks to both the various infrastructural upgrades that are taking place to its ports and airports, as well as its geographical advantage as a connector of three continents and its proximity to the Red Sea – through which 10% of world trade travels.

Islamic Finance Rifaat Ahmed Abdel Karim, Simon Archer, 2011-09-02 Islamic Finance: The Regulatory Challenge...is therefore timely and a truly welcome addition to the growing literature on this subject...I congratulate the two professors for their fine contribution to the evolving art and science of the regulation of Islamic finance. —Dr. Zeti Akhtar Aziz, Governor, Bank Negara Malaysia The World's financial regulators have taken too long to appreciate the importance of adapting their regulatory frameworks to the needs of the fast growing Islamic finance sector. Simon Archer and Rifaat Ahmed, the leaders in the field, have put together a fascinating collection of essays which show just what has to be done. It is a very timely book indeed. —Howard Davies, Director, London School of Economics The emergence of Islamic finance as a major force in the world financial system has focused attention on regulatory issues. This book, edited by Professor Archer and Professor Rifaat, two of the most respected figures in the field, is an important point of reference for those who have to deal with these issues, whether in regulatory authorities, or in the financial institutions themselves. —Professor William Blair QC, Grays Inn, London There is now great interest, both in financial and legal circles, in reliable and authoritative texts on Islamic finance. I have no doubt that the availability of Islamic Finance: The Regulatory Challenge will be warmly welcomed by those who provide financial and legal services. The work will be of great assistance to them. —The Rt Hon the Lord Woolf of Barnes, Law Lord and former Lord Chief Justice of England & Wales

The Transnational Middle East Leïla Vignal,2016-10-04 The Middle East has been undergoing new crises since the powerful socio-political uprisings known as the Arab Spring took place in several countries in 2011. Some countries are experiencing a long-term collapse of their political and social structures out of internal conflicts and external interventions. The Transnational Middle East posits that, in the Middle East, the development of regional dynamics, of processes and circulations of all kinds, can be documented. In this regard, the approaches it develops — ‘bottom-up’ regionalisation, ‘globalisation from below’ — allow for a better understanding of the ways in which the Middle East is part of global transformations. The book analyses how, through their practices, Middle East societies elaborate a regional space which is not institutionalised. Based on fieldwork in the Middle East, the book provides venues for further theoretical elaboration on globalisation and contemporary societies, as well as on processes of regionalisation. It draws on the emergence of genuine regional spaces of culture, art, economic activity, human circulation — which supplement and do not contradict other infra-national, national, or global social processes. As in other areas of the world, these transformations are to a large extent the mode of the Middle East’s insertion into globalisation. In this respect, they go against standard narratives of the supposed ‘exceptionalism’ of the region. This book will be a great contribution to comparative politics, Middle Eastern studies, globalisation and international relations.

Special Report: Digital Kingdom , The Business Year's latest report on the Saudi economy, Special Report: Digital Kingdom—How COVID-19 Changed the Conversation in Saudi Arabia, examines how COVID-19 accelerated digitalization

efforts across the public and private sectors and better helped the kingdom see beyond oil and gas. This 112-page special report contains interviews with top business leaders from across the economy, as well as a range of news and analysis.

Collaborative Wisdom Greg Park, 2016-05-23 Why do some corporate superstars collapse dramatically, while others survive and prosper over many decades? Is the fall primarily caused by 'technical factors', such as poor products and pricing, financial management or market choices, by self-aggrandisement, or perhaps by poor leadership attributes and capabilities? Greg Park argues that ultimately organisational survival and optimal performance over the long term is dependent upon collaborative wisdom. Within the dominant coalition of a successful community or corporation there is an inherited, pervasive, commonly and collectively held dominant logic, comprising leadership principles, perspectives and priorities, based upon universal values which are understood and accepted as satisfying the requirements and aspirations of each stakeholder. This collaborative wisdom ensures cohesive and consistent behaviour across and within every function of a complex, fast-moving organization. Its practical application is reflected in the daily operational decisions of leaders within the organisation, be they divisional, departmental heads or supervisors. Without collaborative wisdom organisational collapse is the inevitable result, primarily through the disintegration of belief, confidence, motivation, cohesion, advocacy and energy within and between key stakeholder groups. Collaborative Wisdom examines the nature and criticality of wisdom as a leadership attribute, how effective operational leadership is not just about knowledge and experience, but more fundamentally about a cognitive mental process which considers and consistently applies fundamental values, principles, perspectives and priorities in an analytical and affective manner. This ensures effective operational leadership and optimal organisational performance over the long term, informed by experience, instinct, intuition, but also by insight, judgment and ultimately, wisdom.

The Business Year: Saudi Arabia 2021 , This publication is the result of months of on-the-ground research at a time of unprecedented upheaval. Not only was Saudi Arabia already in the midst of an economic revolution aimed at diversifying away from oil and gas, but COVID-19 also upended the very way business is conducted, putting to the test many of the digitalization initiatives carried out in recent years. The pandemic thus served as a validation of many of Saudi Arabia's internal reforms. It also created massive opportunities for some of the nation's up-and-coming businesses. In this 246-page publication, we show how technology completely changed the Kingdom during the pandemic. Things will never be the same. It covers finance, payments and fintech, IT and digitalization, industry, water and energy, aviation and defense, transport and logistics, construction and real estate, agriculture, health, education, and tourism.

Great Heroin Coup Henrik Krüger, Jerry Meldon, Peter Dale Scott, 2015-12-31 In this new edition of a cult classic, Henrik Krüger and Jerry Meldon have added new material and provided updates of the investigations Danish investigative author Henrik Krüger set out to write a book about Christian David, a French criminal with a colorful past, and wound up writing a

book—originally published in 1980—that spans all continents and names names all the way up to Richard Nixon. The Nixon administration and CIA wanted to eliminate the old French Connection and replace it with heroin from the Golden Triangle, partly in order to help finance operations in Southeast Asia. The book delves into the relationships between French and U.S. intelligence services and organized crime probing into the netherworld of narcotics, espionage, and international terrorism. It uncovers the alliances between the Mafia, right-wing extremists, neo-fascist OAS and SAC veterans in France, and Miami-based Cuban exiles. It lifts the veil on the global networks of parafascist terrorists who so frequently plot and murder with impunity, thanks to their relationships and services to the intelligence agencies of the so-called free world. In short, this updated edition tells a story which our own media have systematically failed to tell.

Saudi Arabia and the Global Islamic Terrorist Network S. Stern, 2011-11-03 Saudi Arabia influences American policy through both conventional and unconventional methods, all due to the petro-dollars that have been generated from America's addiction to foreign oil. With chapters written by renowned experts, this book uses first-hand accounts to explore this vast influence
