Atlante degli anfibi e dei rettili d'Italia Roberto Sindaco, Societas herpetologica italica, 2006 The Atlas of Italian Amphibians and Reptiles presents the distribution, ecology and conservation status of the 37 species of amphibians and the 50 species of reptiles found in Italy. A 10x10 km UTM grid map is supplied for each species, on the basis of more than 70.000 records contributed by 900 collaborators during the Societas Herpetologica Italica survey project, started in 1994. Entries, illustrated with photos, are subdivided into the following headings: taxonomy, general distribution, comments on the distribution map, habitat, altitudinal distribution, annual activity cycle, reproduction and status of the Italian populations. General sections on biogeography, history of herpetology in Italy, paleoherpetology and herpetological fauna of the small Italian islands are also included. Italian and English text.

Il sito della Piana di San Martino a Pianello Val Tidone. Dal castrum tardoantico all'abbandono nel XVIII secolo. Scavi e ricerche 2018-2021 Roberta Conversi, 2023-04-28 Il volume, a due anni dalla chiusura dell'ultima campagna di scavo del 2021, presenta per la prima volta una lettura coordinata dei dati vecchi e nuovi emersi dalle ricerche, con metodo interdisciplinare, che associa alla presentazione dei dati di scavo, approfondimenti storici e scientifici. Il risultato che si propone è la ricostruzione della genesi e dell'evoluzione di epoca storica del sito della Piana di San Martino, del quale sono state individuate ora sei fasi, dal V alla metà del XVIII secolo, con un'eccezionale testimonianza della presenza di edificato ligneo dal VII secolo al pieno Medioevo. Da castrum tardoantico e ostrogoto, con significativi confronti con i castra d'altura, come il vicino Sant'Antonino in Perti, fondato sul limite fluido goto/bizantino, di cui restano imponenti strutture murarie difensive, residenziali e di servizio, tra cui due cisterne e manufatti significativi, vasellame ceramico di importazione, monete e pesi monetali, dopo la demolizione parziale di alcune strutture a seguito della guerra greco gotica, le evidenze archeologiche rinvenute attestano che il sito si struttura nell'altomedievale come villaggio e appena dopo il Mille come centro castrense d'altura di signori locali di tradizione longobarda, quel castrum Poncianum citato dalle fonti archivistiche dall'inizio del IX secolo. Il sito assume esclusivamente la funzione di luogo di culto e funerario dal pieno Medioevo alla scomparsa per la chiusura al culto della chiesa di San Martino, con perdita di memoria del luogo dal XVIII secolo fino alla riscoperta intorno al 1990 grazie a ricognizioni di volontari dell'Associazione Pandora di Pianello. Con le ricerche 2018-2021 si è potuto ricostruire

un matrix stratigrafico ed elaborare ex novo piante di fase e di strutture, mettendo in relazione dati vecchi e nuovi, che hanno consentito per la prima volta di distinguere e di dare una lettura in estensione delle fasi di occupazione e dei contesti afferenti. Lo studio sistematico dei dati permette ora di porre il sito nel quadro delle trasformazioni storiche avvenute in un ampio torno di secoli, fin ora poco documentate per il piacentino, in un territorio, la Val Tidone, rivolto per contatti e influenze culturali verso il Piemonte, la Liguria e Piacenza e con legami evidenti con il monastero di Bobbio e coi più grandi centri urbani, quali Brescia, Pavia, Milano e con la corte di Ravenna in epoca tardoantica e altomedievale. Il sito della Piana di San Martino, dichiarato di importante interesse archeologico, insiste su un pianoro in una suggestiva cornice paesaggistica sulla cima del Monte San Martino. Fin dai primi sondaggi è emersa una complessa stratigrafia antropica attestante la presenza di due periodi discontinui di frequentazione: uno dall'età del Bronzo Finale alla seconda età del Ferro, un altro che va dall'età tardoantica fino alla metà del XVIII secolo. Le prime indagini svolte dal 2000 al 2012 sul deposito stratigrafico di epoca storica hanno portato in luce manufatti mobili notevoli e consistenti resti di mura di edifici dal tardoantico alla fine del XVIII secolo. Dal 2018 la Soprintendenza ha condotto campagne di scavo sistematiche con fondi ministeriali, su un progetto di ricerca che prevede ulteriori approfondimenti stratigrafici, rilievo 3D e rinterro dei resti già messi in luce, altrimenti a rischio di scomparsa per deterioramento a causa delle caratteristiche del luogo e delle condizioni climatiche avverse alla conservazione open air.

Handbook of Perinatal Clinical Psychology Rosa Quatraro, Pietro Grussu, 2020-03-26 The book examines the major issues in perinatal clinical psychology with the presence of theoretical information and operational indications, through a biopsychosocial approach. The multiplicity of scientific information reported makes this book both a comprehensive overview on the major perinatal mental health disorders and illnesses, and a clinical guide. It covers perinatal clinical psychology through a journey of 15 chapters, putting the arguments on a solid theoretical basis and reporting multiple operational indications of great utility for daily clinical practice. It has well documented new evidence bases in the field of clinical psychology that have underpinned the conspicuous current global and national developments in perinatal mental health. As such, it is an excellent resource for researchers, policy makers, and practitioners - in fact, anyone and everyone who wishes to understand and rediscover, in a single opera, the current scientific and application scenario related to psychological health during pregnancy and after childbirth.

Principles of Decoration in the Roman World Annette Haug, M. Taylor Lauritsen, 2021-04-19 This book explores the manner in which architectural settings and action contexts influenced the perception of decoration in the Roman world.

Crucial to the relationship between ancient viewers and media was the concept of decor, a term employed by Vitruvius and other Roman authors to describe the appropriateness of particular decorative elements to the environment in which they were located. The papers in this volume examine a diverse range of decorated spaces, from press rooms to synagogues, through the lens of decor. In doing so, they shed new light on the decorative principles employed across Roman Italy and beyond.

Europe in the Sixteenth Century H.G. Koenigsberger, George L. Mosse, G.Q. Bowler, 2014-06-06 This bestselling, seminal book - a general survey of Europe in the era of 'Renaissance and Reformation' - was originally published in Denys Hay's famous Series, 'A General History of Europe'. It looks at sixteenth-century Europe as a complex but interconnected whole, rather than as a mosaic of separate states. The authors explore its different aspects through the various political structures of the age - empires, monarchies, city-republics - and how they functioned and related to one another. A strength of the book remains the space it devotes to the growing importance of town-life in the sixteenth century, and to the economic background of political change.

Ambrose of Milan Neil B. McLynn, 2014-06-26 In this new and illuminating interpretation of Ambrose, bishop of Milan from 374 to 397, Neil McLynn thoroughly sifts the evidence surrounding this very difficult personality. The result is a richly detailed interpretation of Ambrose's actions and writings that penetrates the bishop's painstaking presentation of self. McLynn succeeds in revealing Ambrose's manipulation of events without making him too Machiavellian. Having synthesized the vast complex of scholarship available on the late fourth century, McLynn also presents an impressive study of the politics and history of the Christian church and the Roman Empire in that period. Admirably and logically organized, the book traces the chronology of Ambrose's public activity and reconstructs important events in the fourth century. McLynn's zesty, lucid prose gives the reader a clear understanding of the complexities of Ambrose's life and career and of late Roman government.

The Human Use of Caves Clive Bonsall, Christopher Tolan-Smith, 1997 Twenty-eight essays by a very distinguished collection of contributors who were invited to speak at a conference in Newcastle in 1993 on a number of themes in terms of evidence for cave and rockshelter use in their areas of the world.

The Urban Question Manuel Castells, 1977 A review of the original French edition of this book in the American Journal of Sociology hailed it as the most finished product yet to emerge from the new (Marxist) school of French urban sociology... The aim of the book is nothing less than to reconceptualize the field of urban sociology. It is carried out in two stages: a critique of the literature of urban sociology (and urbanization) and an attempt to lay the Marxist bases for a reconstructed urban sociology. The problems facing the world's cities, whether problems of development or of decay, cannot be solved until they have been diagnosed. The race riots in Detroit, the shantytowns of Paris, the financial crisis of New York must not be seen in isolation. The mushrooming cities of the third world, demolition and urban sprawl at home are located in a network of economics, social welfare and power politics, and the decisions we are called upon to make elude us in a fog of ideology. This brilliant exposition of the function of the city in social, economic and symbolic terms illuminates the creation and structuring of space by action administrative, productive and more immediately human. The interaction of environment and life-style, the complex of market forces and state policy against a background of traditional social practice is scrutinized with the aim of establishing concepts and research methods that will enable us to come to grips with the cities themselves and the way in which we view them. Castells draws on urban renewal in Paris, the English New Towns, the American megalopolis for concrete data in his empirical and theoretical investigation. In this English edition, a new Part V has been added on urban development in America. The chapters on the pobladores in Chile and the struggle of the FRAP in Quebec have been greatly extended and an Afterword traces the development of research in the past five years. -- Amazon.com.

Our House is on Fire Malena Ernman, Greta Thunberg, Beata Ernman, Svante Thunberg, 2020-03-05 The profoundly moving story of how love, courage and determination brought Greta Thunberg's family back from the brink 'Urgent, lucid, courageous ... a must-read message of hope ... It is a glimpse of a saner world' David Mitchell, Guardian This is the story of a happy family whose life suddenly fell apart, never to be the same again. Of two devoted parents plunged into a waking nightmare as their eleven-year-old daughter Greta stopped speaking and eating, and her younger sister struggled to cope. They desperately searched for answers, and began to see how their children's suffering reached far beyond medical diagnoses. This crisis was not theirs alone: they were burned-out people on a burned-out planet. And so they decided to act. *Our House is on Fire* shows how, amid forces that tried to silence them, one family found ways to strengthen, heal, and gain courage from the love they had for each other - and for the living world. It is a parable of hope and determination in an emergency that affects us all.

In addition different disease situations are addressed including different treatment approaches in primary disease and in recurrent and/or metastatic disease as well as new developments in pathology, surgery and reconstruction techniques, new systemic therapies in salivary gland cancer, and supportive care and follow-up. All disciplines involved in the treatment of head & neck cancer are covered with a focus on translation into daily practice. The 8th-THNO is designed for medical oncologists, head and neck surgeons, radiation oncologists, otolaryngologists, and other medical professionals involved in the treatment of patients with head and neck cancer.

Mobile Lives Anthony Elliott, John Urry, 2010-06-10 How should we understand the personal and social impacts of complex mobility systems? Can lifestyles based around intensive travel, transport and tourism be maintained in the 21st century? What possibility post-carbon lifestyles? In this provocative study of life on the move, Anthony Elliott and John Urry explore how complex mobility systems are transforming everyday, ordinary lives. The authors develop their arguments through an analysis of various sectors of mobile lives: networks, new digital technologies, consumerism, the lifestyles of 'globals', and intimate relationships at-a-distance. Elliott and Urry introduce a range of new concepts - miniaturized mobilities, affect storage, network capital, meetingness, neighbourhood lives, portable personhood, ambient place, globals - to capture the specific ways in which mobility systems intersect with mobile lives. This book represents a novel approach in post-carbon social theory. It will be essential reading for advanced undergraduate students, postgraduates and teachers in sociology, social theory, politics, geography, international relations, cultural studies, and economics and business studies.
