**Fanny Herself** Edna Ferber, 2024-01-02 *Fanny Herself* by means of Edna Ferber is a charming novel that delves into the lifestyles of Fanny Brandeis, a younger Jewish woman developing up in the early twentieth century in Winnebago, Wisconsin. As Fanny navigates the challenges of adolescence and younger maturity, she grapples with questions of identity, ambition, and the pursuit of success in a rapidly converting world. From her humble beginnings working in her father's keep to her upward thrust as a success businesswoman within the male-dominated international of publishing, Fanny faces numerous obstacles and setbacks alongside the manner. Yet, with willpower, resilience, and an eager mind, she overcomes adversity to attain her dreams. Set against the backdrop of a vibrant immigrant network and the bustling streets of Chicago, Ferber's novel paints a bright portrait of turn-of-the-century America, shooting the spirit of the instances with warmth and authenticity. Through Fanny's journey, Ferber explores issues of own family, friendship, love, and the pursuit of happiness, supplying readers a poignant and insightful glimpse into the human revel in. At its heart, *Fanny Herself* is an undying coming-of-age story that resonates with readers of all ages, celebrating the indomitable spirit of a young female decided to carve out her personal path within the world.

**Fanny Hill in Bombay** Hal Gladfelder, 2012-04-16 John Cleland is among the most scandalous figures in British literary history, both celebrated and attacked as a pioneer of pornographic writing in English. His first novel, *Memoirs of a Woman of Pleasure, or Fanny Hill*, is one of the enduring literary creations of the eighteenth century, despite over two hundred years of legal prohibition. Yet the full range of his work is still too little known. In this study, Hal Gladfelder combines groundbreaking archival research into Cleland's tumultuous life with incisive readings of his sometimes extravagant, sometimes perverse body of work, positioning him as a central figure in the development of the novel and in the construction of modern notions of authorial and sexual identity in eighteenth-century England. Rather than a traditional biography, *Fanny Hill in Bombay* presents a case history of a renegade authorial persona, based on published works, letters, private notes, and newly discovered legal testimony. It retraces Cleland's career from his years as a young colonial striver with the East India Company in Bombay through periods of imprisonment for debt and of estrangement from collaborators and family, shedding light on his paradoxical status as literary insider and social outcast. As novelist, critic, journalist, and translator, Cleland engaged with the most challenging intellectual currents of his era yet at the same time was vilified as a pornographer,

atheist, and sodomite. Reconnecting Cleland's writing to its literary and social milieu, this study offers new insights into the history of authorship and the literary marketplace and contributes to contemporary debates on pornography, censorship, the history of sexuality, and the contested role of literature in eighteenth-century culture.

**Kennan** Frank Costigliola, 2023-01-17 A definitive biography of the U.S. diplomat and prize-winning historian George F. Kennan. The diplomat and historian George F. Kennan (1904–2005) ranks as one of the most important figures in American foreign policy—and one of its most complex. Drawing on many previously untapped sources, Frank Costigliola's authoritative biography offers a new picture of a man of extraordinary ability and ambition whose idea of containing the Soviet Union helped ignite the Cold War but who spent the next half century trying to extinguish it. Always prescient, Kennan in the 1990s warned that the eastward expansion of NATO would spur a new cold war with Russia. Even as Kennan championed rational realism in foreign policy, his personal and professional lives were marked by turmoil. And though he was widely respected and honored by presidents and the public, he judged his career a failure because he had been dropped as a pilot of U.S. foreign policy. Impossible to classify, Kennan was a sui generis thinker, a trenchant critic of both communism and capitalism, and a pioneering environmentalist. Living between Russia and the United States, he witnessed firsthand Stalin's tightening grip on the Soviet Union, the collapse of Europe during World War II, and the nuclear arms race of the Cold War. An absorbing portrait of an eloquent, insightful, and sometimes blinkered iconoclast whose ideas are still powerfully relevant, Kennan invites us to imagine a world that Kennan fought for but was unable to bring about—one not of confrontations and crises but of dialogue and diplomacy.

*British Women and Cultural Practices of Empire, 1770-1940* Rosie Dias,Kate Smith,2018-10-04 Correspondence, travel writing, diary writing, painting, scrapbooking, curating, collecting and house interiors allowed British women scope to express their responses to imperial sites and experiences in the 18th, 19th and 20th centuries. Taking these productions as its archive, *British Women and Cultural Practices of Empire, 1775-1930* includes a collection of essays from different disciplines that consider the role of British women's cultural practices and productions in conceptualising empire. While such productions have started to receive greater scholarly attention, this volume uses a more self-conscious lens of gender to question whether female cultural work demonstrates that colonial women engaged with the spaces and places of empire in distinctive ways. By working across disciplines, centuries and different colonial geographies, the volume makes an exciting and important contribution to the field by demonstrating the diverse ways in which European women shaped constructions of empire in the modern period.

**The Phenomenology of Religious Belief** Michael J. Shapiro,2021-05-06 In *The Phenomenology of Religious Belief*, the renowned philosopher Michael J. Shapiro investigates how art – and in particular literature and film – can impact upon both traditional interpretations and critical studies of religious beliefs and experiences. In doing so, he examines the work of prolific and award-winning writers such as Toni Morrison, Philip K. Dick and Robert Coover. By placing their work in

conjunction with critical analyses of media by the likes of Ingmar Bergman and Pier Paolo Pasolini and combining it with the work of groundbreaking thinkers such as George Canguilhem, Giorgio Agamben and Slavoj Žižek, Shapiro takes a truly interdisciplinary approach to the question of how life should be lived. His assessment of phenomenological subjectivity also leads him to question the nature of political theology and extend the criticism of Pauline theology.

Transboundary Marine Spatial Planning and International Law Daud Hassan, Tuomas Kuokkanen, Niko Soininen, 2015-07-16 Marine Spatial Planning (MSP) is an integrated and comprehensive approach to ocean governance and is used to establish a rational use of marine space and reconcile conflicting interests of its users. MSP allows both a high level of environmental protection and a wide range of human activities and emphasizes coordinated networks of national, regional and global institutions. This book focuses on the framework of international law behind MSP and especially on the transboundary aspects of MSP. It first sets out a general framework for transboundary MSP and then moves on to compare and assess differences and similarities between different regions. Specific detailed case studies include the EU with the focus on the Baltic Sea and North Sea, the Bay of Bengal and Great Barrier Reef in Australia. The authors examine the national and regional significance of MSP from an integrated and sustainable ocean governance point of view. They also show how transboundary MSP can create opportunities and positive initiatives for cross-border cooperation and contribute to the effective protection of the regional marine environment.

The Palgrave Handbook of Communist Women Activists around the World Francisca de Haan, 2023-01-23 This Handbook addresses the role of women in communism as a global, social and political movement for the first time, exploring their lives, forms of activism, political strategies and transnational networks. Comprising twenty-five chapters, based on new and primary research, the book presents the lives of self-identified communist women from a truly international perspective and outlines their struggles against fascism and colonialism, and for women's emancipation and national liberation. By using the lens of transnational political biography, the chapters capture the broader picture of these women's lives, unpacking the links between the so-called public and private, the power structures and inequalities of their societies, the formal networks and politics in which they were involved, and the informal connections and friendships that supported their activism both at the national and international level. Challenging androcentric and Eurocentric narratives about communism, this Handbook reveals the active and significant roles of women in nineteenth- and twentieth-century communist movements and regimes, and highlights the importance of communist women in shaping the agenda for women's rights worldwide.

The Public Sector in an Age of Austerity Bryan M. Evans, Carlo Fanelli, 2018-07-23 Following the 2008 global financial crisis, Canada appeared to escape the austerity implemented elsewhere, but this was spin hiding the reality. A closer look reveals that the provinces – responsible for delivering essential public and social services such as education and healthcare – shouldered the burden. The Public Sector in an Age of Austerity examines public-sector austerity in the provinces and territories, specifically addressing how austerity was implemented, what forms austerity agendas took (from regressive taxes and new user fees to public-sector layoffs and privatization schemes), and what, if any, political responses resulted. Contributors focus on the period from 2007 to 2015, the global financial crisis and the period of fiscal consolidation that followed, while also providing a longer historical context – austerity is not a new phenomenon. A granular examination of each jurisdiction identifies how changing fiscal conditions have affected the delivery of public services and restructured public finances, highlighting the consequences such changes have had for public-sector workers and users of public services. The first book of its kind in Canada, The Public Sector in an Age of Austerity challenges conventional wisdom by showing that Canada did not escape post-crisis austerity, and that its recovery has been vastly overstated.

Experiencing Materiality Valentina Gamberi, 2021-02-03 Representing a cutting-edge study of the junction between theoretical anthropology, material culture studies, religious studies and museum anthropology, this study examines the interaction between the human and the nonhuman in a museum setting usually defined as ‘non-Western’, ‘non-scientific’ and ‘religious.’ Combining an on-site analysis of exhibit spaces with archival research and interviews with museum curators, the chapters highlight contradictions of museum practices, and suggests that museum practitioners use museum spaces and artefacts as a way of formulating new theoretical stances in material culture studies, thus viewing museums as producers of theories together with affective engagements.

These people are sometimes famous, sometimes obscure, sometimes heroic, and sometimes scoundrels--but they are always interesting.
