The Rise of Tourism in China Yiping Li, 2023-05-15 This book offers a comprehensive understanding of China's tourism development from 1992 onwards, focusing on the social-cultural change that accompanied the rise of tourism. It examines both the economic benefits and sociocultural impacts of tourism and argues that tourism sustainability depends on a delicate balance between economic and social-cultural interests which could manifest differently among the stakeholders of various interests. It also explores, through both theoretical and empirical analysis, how travel connects people and places through the processes of tourist imagination and consumption. The volume portrays how contemporary discourses fuse with individual histories to formulate the ways in which tourists understand China. It will be a useful resource for students and scholars in human geography, tourism management, leisure and recreation, and social sciences.

Tourism in China David Airey, King Chong, 2011-04-20 Tourism in China has grown rapidly since the country started implementing its open-door policy in 1978. Tourism development is now an essential agenda item for the Chinese government's plan for economic & social growth. Policy and policy-making for tourism therefore provides the essential background to understand tourism development in China. This is the first book to set the development of tourism in China since 1949 in its policy context. Underpinned by a strong conceptual framework, this systematic study of China contributes to an in-depth understanding of how public policy-making for tourism works and how it affects the development of tourism in the real world. The text explores tourism policy during three distinct leadership periods since creation of the People's Republic of China in 1949: Mao Zedong (1949-1978); Deng Xiaoping (1978-1997) and the Collective Leadership Era (1997-the present). The attitudes and values of leaders and central government agencies towards tourism are considered, as well as the interactions of ideological orthodoxies, socio-economic conditions and institutions in their influence on national policy-making and tourism development. A separate chapter is devoted to policy-making in China's two Special Administrative Regions, Hong Kong and Macau, as well as Taiwan due to its political separation from the Mainland, and Tibet, given its distinctive characteristics. Drawing on China's experience over sixty years the book concludes with both theoretical and practical implications for tourism policy-making. This timely volume offers important insights into China's Tourism as well as contributing to a wider pattern of debates about the respective roles of government policy and the market in the past and future. The material draws on exclusive in-depth interviews with key informants in China and on government documents and

official sources not generally available in the international literature. This will be of interest to higher level students, academics & researchers within Tourism, Policy studies, Politics, Geography and China Studies.

Tourism in China Chris Ryan, Gu Huimin, 2009-01-13 China is forecast to be the primary tourist destination and tourist-generating country by 2020. However, much of the writing on tourism in China has come from people within the English academic world who are not involved in the issues related to Chinese tourism development. This book provides a voice to Chinese mainland academic researchers and examines the nature of tourism research and tourism development in China. Contributors, many of whom are based in China and are immersed in the daily issues of teaching, researching and planning tourism development within China, discuss issues related to resource use, destination image and community participation with case studies that combine conceptual frameworks and practical issues. This authoritative text on tourism in China will be of interest to scholars and students of tourism throughout the world.

Tourism in China Kaye Sung Chon, Zhang Guangrui, Alan A. Lew, John Ap, Lawrence Yu, 2013-05-13 Examine China's impact on the world tourism market! Tourism in China is a comprehensive study of tourism and the travel industry in China--past, present, and future. Since joining many of its Asia-Pacific neighbors in identifying tourism as a vehicle for socioeconomic growth and poverty alleviation, China has become the leader in the Asian travel industry, surpassing all forecasts with high and constant growth in international and domestic tourism activity. In fact, the World Trade Organization predicts that by 2020, China will become the world's leading tourism destination, receiving 145 million visitors. This timely book examines the diverse opportunities and challenges the country's tourism industry faces in meeting those projections. A unique, interdisciplinary guide that appeals to practitioners and academics, *Tourism in China* has been called "probably the most in-depth analysis of China's tourism industry" by the World Trade Organization's Dr. Harsh Varma. The book presents a collection of articles--scholarly in nature, comprehensive in scope--that serves as a significant (and much-needed) reference on Chinese tourism, though not including minority or border tourism, or the Hong Kong or Taiwan markets. The industry's historical development, its impact on the Chinese economy and ecology, and its current and future markets are examined extensively. *Tourism in China* also examines: the impressions of Western travelers in China during the 19th century the tourism boom and its development since 1978 the development of ecotourism in China's nature reserves the effect of the tourism boom on the hotel industry the development of theme parks in China. With two-thirds of China's provincial governments committed to making tourism one of their pillar industries, it is essential that tourism professionals, academics, and students around the world have a thorough understanding of this leader in current and future world travel. *Tourism in China* provides a detailed look at how the country's tourism industry was built and how it will continue to expand. Helpful tables and figures, as well as a glossary of relevant terms, make the information easy to access and understand.

Tourism and Modernity in China Tim Oakes, 2005-06-22 This book explores how the experience of modernization is

revealed in China's newly constructed tourist landscapes. It argues that in China's burgeoning ethnic tourist villages and theme parks can be seen all the contradictions, debasement, and liberating potentials of Chinese modernity. Tim Oakes uses the province of Guizhou to examine the Chinese tourist industry as an example of the state's modernization policies and how local people have engaged with these changes.

Tourism And China's Development- Policies, Regional Economic Growth & Ecotourism Clement A Tisdell, Julie Jie Wen, 2001-03-15 China's continuing economic reforms since 1978 have substantially altered its economic structure, expanding the service sector, including the tourist industry. The reforms have resulted in spectacular economic growth and a boom in tourism development. But China's economic growth has been very uneven regionally and has been cause for political concern. The ability of tourism to counteract this uneven development and promote regionally decentralised development is therefore of special interest as is the sustainability of regional tourism, which often depends on nature conservation and the presence of minority cultures. This book addresses all those issues. Although focussed on China, it deals with issues such as those involving the sustainability of tourism, and convergence and divergence in regional tourism development and economic growth relevant to other geographical areas.

Tourism in China Franziska Pfund, 2011-03 Seminar paper from the year 2002 in the subject Tourism, grade: 1,0, University of Applied Sciences Hof, 7 entries in the bibliography, language: English, abstract: Since the adoption of the policies of reform and the opening to the outside world, China's tourism has entered a stage of rapid development. Being a country rich in tourism resources, it has become a demanded destination in Asia for tourists from all over the world, but also domestic tourism is growing vigorously. This paper is divided in four parts. Chapter one will give an insight into important factors concerning China's tourism industry and explain its economical and political situation. Besides, investments in tourism will be explained. Chapter two illustrates China's tourism market, considering tourism operation and management, crucial regulations, infrastructure development but also human resources as well as media and advertising. Chapter three points out the impact of the World Tourism Organization on China's tourism industry and illustrates through which projects the organization has helped to further development of tourism. In chapter four the main points will be summarized.

The Challenges and Issues of Tourism Development in China Jian Ming Luo, 2017 The tourism and hospitality industry in China witnessed a dramatic increase from 1978 to 2015. The Chinese tourism industry has since become an important component of China's economy. The economic benefits of tourism were easily identified and justified when many developing countries started to embrace tourism as an option for development. However, tourism development is influenced by many factors such as regulation policy, labor/education level, urban structure and technological applications. Those factors are challenges in the world's largest and fastest growing industry. This book makes a systematic analysis of the challenges and issues in tourism development in China. Particularly, this issue seldom appeared in tourism and hospitality

literature. Therefore, this book enhances tourism literature by testing tourist-related issues in the 21st century. Furthermore, the government and/or practitioners can improve the management of the tourism sector using this book. This book is divided into two main parts. The first part consists of five chapters. The first chapter is an introduction to domestic tourism development in China. The second chapter is about outbound tourism development in China. The third chapter concerns the change of tourism policies. The fourth chapter is about the relationship between urbanisation and tourism development in China. The fifth chapter discusses the social impacts of tourism development. The second part consists of two cases. The first case delves into the impact of urbanisation on regional hotel development. The second case discusses the application of media strategies to improve China's destination image. The case study will provide a practical perspective on tourism development as well as the recent changes and the impacts of tourism development on society.

Tourism and Hotel Development in China Ray J Pine, Terry Lam *Deceased*, Hanquin Qui Zhang, 2013-04-03 Examine the reasons for the rapid growth of China's tourism industry *Tourism and Hotel Development in China: From Political to Economic Success* is a comprehensive guide to the development of the tourism industry in Mainland China following the end of the Cultural Revolution. Conceived as a textbook but equally valuable as a professional resource for consultants, researchers, and tourist organizations, this insightful book tracks the unique circumstances that sparked the growth of China's tourism and hotel industry from a political, diplomatic activity to a burgeoning economic industry. The book includes background information on geography, culture, history, politics, and economics, and examines the evolution of tourism policies, inbound vs. outbound travel, hotel operations and trends, and the Chinese government's role in developing tourism. China may be a latecomer to international tourism development, but visitors have made it one of the world's top 10 travel destinations every year since 1994. Since historic policy shifts in 1978 opened China's doors to the outside world, inbound tourism has played a significant role in building a national economy. And the increase in disposable income among China's citizens has helped create a sizable market for domestic and outbound tourism as well. *Tourism and Hotel Development in China* looks at the major factors and characteristics of each type of tourism, international hotel development trends and their influence on China's hotel industry, related human resources issues, travel services, the development of hotel chains in China, compensation and incentive management, and the future of China's tourism and hotel industry. Topics examined in *Tourism and Hotel Development in China* include: travel and tourism, pre-and post-1949 the Asia market the intercontinental market international tourism in different regions of China popular urban tourist destinations in China approved outbound destinations outbound travel to Hong Kong challenges facing travel services local protectionism travel agencies hotel franchising foreign vs. local hotel chains outsourcing and much more! *Tourism and Hotel Development in China: From Political to Economic Success* follows the journey of China's tourism industry from a public relations vehicle, restricted by the economy and controlled by the government, to an important source of commerce for a country whose national economy was

nearly on the verge of collapse.

The Politics of Heritage Tourism in China Xiaobo Su, Peggy Teo, 2009-09-11 This volume unravels the politics surrounding behind China's hegemonic project of heritage tourism development in Lijiang. It provides a compelling study of the dialectical relationships between global and domestic capital, the state, tourists and locals as they collude, collaborate and contest one another to ready Lijiang for tourist consumption. Using rich material from insightful interviews and quantitative data, the authors show how complex tourism development can be even as it strives to do good for the community. Su and Teo investigate the practices of contestation and negotiation of identity within Lijiang; analyze the negotiations that transform material and vernacular landscapes; and suggests strategies that will enable sustained tourism interest in this location. Linking Gramsci's theory on hegemony to the cultural politics of space, this book has two major strengths: it establishes a theoretical framework to conceptualize power relations in tourism space and provides critical insights into the rapidly shifting socio-political landscape of contemporary China. Comparisons with other Chinese heritage sites are also provided. By addressing the power struggles inevitable in the process of tourism development, *The Politics of Heritage Tourism in China* provides an innovative understanding of China's dynamic politics in a period of transition. As such, it will address the needs of students and academic scholars working in the fields of China studies, tourism, cultural studies, urban studies, sociology, geography, political science and heritage studies.

Chinese Outbound Tourist Behaviour Jun Wen, Metin Kozak, 2022-06-23 Assuming an international perspective, *Chinese Tourist Outbound Behaviour* presents an insightful exploration of the evolution of China's tourism market, explores Chinese tourists' behaviour, and considers how the country's tourism landscape will expand in the future. Featuring 16 chapters compiled and written by industry experts representing 11 countries, this collection offers a vivid profile of Chinese tourists and the characteristics distinguishing them from other market segments. This book coincides with the growing interest in Chinese tourism and tourist behaviour as the top market in the world in terms of tourism spending and arrival numbers, presenting an overview of Chinese tourist segments and travel-related concerns to paint a clear picture of the market's status. Chapters address the future of Chinese tourism, providing industry stakeholders an up-to-date view on this valuable market along with suggestions to best harness the market's power. Providing an up-to-date exploration of numerous contemporary issues, this book will be valuable to a wide audience, including advanced students in tourism, hospitality and leisure and recreation studies and stakeholders, authorities, establishments and employees within the tourism industry. This book offers readers greater knowledge about the past, present and future of the Chinese outbound tourism market.

China's Tourism Industry Melanie Bobik, 2010 Scholarly Essay from the year 2010 in the subject South Asian Studies, South-Eastern Asian Studies, printed single-sided, grade: 1,3, University of Applied Sciences Berlin (MBA EurAsia), language: English, abstract: According to the World Tourism Organization (UNWTO), China will become the world's flagship tourism

destination as the largest host country worldwide and the fourth largest to send tourists abroad by 2020. This paper focuses on the growing marketplace for the Chinese tourism industry and evaluates the current industry trends, evolving market and growth prospects of the tourism industry, focusing on inbound tourists, i.e. international visitors from abroad. Including current figures about the tourism sector of this global player, a collection of further reading and important surveys about the tourist market and its challenges nowadays, this paper provides an in-depth insight into the future of this industry.

The Theory and Practice of China's Tourism Economy (1978-2017) Peng Zhou, 2019-08-23 This book is devoted to the analysis of the three main tasks of China's tourism development: Firstly, the theory of tourism development since the initiation of reform and opening-up. Secondly, the practice and problems in infrastructure building. Thirdly, the mold and policy used in the course of development. The book pursues three major objectives: firstly, to portray the stage of development; secondly, to analyze the specific experience in China's case; thirdly, to review theory and try to put forward advice on investment and management.

Tourism Product Development in China, Asian and European Countries Yuhua Luo, Jinbo Jiang, Doudou Bi, 2020-05-21 This book analyzes a broad variety of tourism products in China, Asia and Europe that employ both cutting-edge IT technologies and advanced methodologies. These products are cultural tourism, recreational tourism, sport tourism, adventure tourism, medical tourism and more. Authors from different areas contributed to the book, including academic researchers, graduate students, government administrators and industry practitioners. The book covers the entire chain of tourism product business processes: product development and improvement, tourist behavior analysis, marketing and sales, customer service, etc. In addition, it addresses related issues such as tourism sustainability, policymaking, environmental protection and human resource development. Big data processing, data mining, visual content analysis and textural content analysis, semantic nets and sentiment analysis are among the cutting-edge technological tools used to study tourism product development here. The book gathers selected papers from the 9th International Conference on Tourism and Hospitality between China and Spain (www.china-spain.org) with participants from 18 countries. Though the book is mainly intended for researchers and policymakers, it will also appeal to a wider audience, due to its first-hand content, insightful analysis and broad geographic coverage.

Chinese Outbound Tourism 2.0 Xiang (Robert) Li, 2016-02-03 Booming Mainland Chinese outbound travel is one of the most exciting phenomena in the world tourism industry's recent history. From 2000 to 2010, Chinese outbound travel increased at a compounded annual rate of 18.5 percent, and it is forecasted that by 2020 China will generate approximately 100 million outbound trips a year, making China the fourth

China's Outbound Tourism Wolfgang Arlt, 2006-09-27 The book analyzes the history and development of Chinese international travelling, the politics and economics behind the upsurge, and the background of the travellers. Experts on key

destinations offer their first hand experiences of Chinese outbound tourism.

A Landscape of Travel Jenny T. Chio, 2014-03-28 While the number of domestic leisure travelers has increased dramatically in reform-era China, the persistent gap between urban and rural living standards attests to ongoing social, economic, and political inequalities. The state has widely touted tourism for its potential to bring wealth and modernity to rural ethnic minority communities, but the policies underlying the development of tourism obscure some complicated realities. In tourism, after all, one person's leisure is another person's labor. *A Landscape of Travel* investigates the contested meanings and unintended consequences of tourism for those people whose lives and livelihoods are most at stake in China's rural ethnic tourism industry: the residents of village destinations. Drawing on ethnographic research conducted in Ping'an (a Zhuang village in Guangxi) and Upper Jidao (a Miao village in Guizhou), Jenny Chio analyzes the myriad challenges and possibilities confronted by villagers who are called upon to do the work of tourism. She addresses the shifting significance of migration and rural mobility, the visual politics of tourist photography, and the effects of touristic desires for "exotic difference" on village social relations. In this way, Chio illuminates the contemporary regimes of labor and leisure and the changing imagination of what it means to be rural, ethnic, and modern in China today.

Report on Urban Tourism Development in China World Tourism Organization, 2012 China continues to develop as a leading powerhouse in tourism, and it becomes ever more important to examine the various facets of tourism in China in order to understand the potential of this market, and the effect it will have on global tourism. This report analyses the statistics of Chinese inbound metropolitan tourism markets, as well as the outbound trends of metropolitan residents from 2000 to 2007. Twenty of China's best tourism cities are analyzed. Originally released in Chinese by the Shanghai Institute of Tourism in 2009, this English edition provides special insight into China's cities as source markets as well as destinations.

Tourism and Local Development in China Gang Xu, 2013-10-11 The boom in tourism to and within China is quite a recent phenomenon. China is now among the leading international tourist destinations, and demand for domestic tourism is rapidly increasing. This study examines the role of tourism in the local economic development in different areas of China, and identifies the decisive factors in determining the success or failure of tourism-oriented development strategy at the local level. The author juxtaposes case studies of Guilin, a domestic and international tourist destination in a less developed local area, Suzhou, also both a domestic and international destination but in a more mature local economy, and lastly Beidaihe, a mainly domestic tourist destination.

Tourism Research in China Songshan Huang, Ganghua Chen, 2016 This book provides critical in-depth reviews on key themes and issues in tourism research in China. These themes include: Chinese scholars' epistemological views of tourism, rural tourism development, community participation in tourism, tourist market and behaviour, tourist attraction management and tour guiding and interpretation in China. While Chinese scholars are often able to access key research in both English

and Chinese, the majority of researchers from outside China without knowledge of the Chinese language are unable to read original research from China. This book seeks to redress this knowledge imbalance and bring key Chinese tourism research to the international tourism academic community. This book will be a valuable reference for tourism researchers, postgraduate students and industry professionals.
