Outdoor Learning through the Seasons Ann Watts,2020-05-14 Outdoor learning and play experiences are an essential part of young children's development. The importance of offering children first-hand experience of the natural world becomes more urgent as research evidence demonstrates the benefits of becoming physically and emotionally involved with the natural world. *Outdoor Learning through the Seasons* shows how we can encourage young children to engage with nature on a daily basis throughout the year. Using the four seasons as a framework, it supports adults to develop their own awareness of the world around them and feel confident about taking children outside every day. There are suggestions for caring for gardens and wildlife through the year, and ideas to brighten grey winter days, enjoy the summer sunshine or explore in the snow. Now featuring full-colour photographs throughout, this new edition has been updated to include references to recent research, new material on Forest Schools, discussion questions for practitioners and in-depth case studies of learning in action. Features include: Ideas for all seasons, weather conditions and working with the four elements: earth, air, water and fire Guidance on fulfilling the learning requirements of EYFS and the Characteristics of Effective Learning Advice on working with parents and the role of adults Practical tips and suggestions of how to make the most of a small space or how to re-plan an existing space Useful reference lists of further resources including stories, poems and websites This practical book is essential reading for all those looking to provide rich and stimulating outdoor learning and

play provision for children in early years settings on a daily basis and for parents and carers wishing to get the most of time outdoors with their children.

With Nature in Mind Andy McGeeney, 2016-04-21 What is ecotherapy, how does it relate to mental health, and how can it reduce emotional distress and promote general wellbeing? This book explains how a deeper connection to nature can improve quality of life, by combining the therapeutic power of mindfulness and being out in the natural world. Examining the latest psychological research evidence into how and why the natural world has such a positive effect on us, this book shows how best to utilise these therapeutic connections in practice. 100 nature-based activities are included, from experiencing the full force of the wind, to creating a sound map of natural noises. The aims of each activity are clearly outlined, with detailed guidelines for facilitating outdoor sessions with adults effectively and safely, and advice to help make the most of the outdoors in all weathers and seasons.
