The Origin of Consciousness in the Breakdown of the Bicameral Mind Julian Jaynes,2000-08-15 National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—American Journal of Psychiatry

Breaking Dawn Stephenie Meyer,2009-02-26 Twilight tempted the imagination . . . New Moon made readers thirsty for more . . . Eclipse turned the saga into a worldwide phenomenon . . . And now - the book that everyone has been waiting for . . . *Breaking Dawn*. In the much anticipated fourth book in Stephenie Meyer's love story, questions will be answered and the fate of Bella and Edward will be revealed.

Blindsight Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions

with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Get Dirty Gretchen McNeil, 2015-06-16 Now streaming on Netflix and BBC iPlayer! The Breakfast Club meets Pretty Little Liars in Gretchen McNeil's sharp and thrilling sequel to *Get Even*. Perfect for fans of E. Lockhart, Karen M. McManus, and Maureen Johnson. The members of Don't Get Mad aren't just mad anymore . . . they're afraid. And with Margot in a coma and Bree under house arrest, it's up to Olivia and Kitty to try to catch their deadly tormentor. But just as the girls are about to go on the offensive, Ed the Head reveals a shocking secret that turns all their theories upside down. The killer could be anyone, and this time he—or she—is out for more than just revenge. The girls desperately try to discover the killer's identity as their own lives are falling apart: Donté is pulling away from Kitty and seems to be hiding a secret of his own, Bree is sequestered under the watchful eye of her mom's bodyguard, and Olivia's mother is on an emotional downward spiral. The killer is closing in, the threats are becoming more personal, and when the police refuse to listen, the girls have no choice but to confront their anonymous "friend" . . . or die trying.

Hit Makers Derek Thompson, 2017-02-07 What makes a hit a hit? In *Hit Makers*, Atlantic Senior Editor Derek Thompson puts pop culture under the lens of science to answer the question that every business, every producer, every person looking to promote themselves and their work has asked. Drawing on ancient history and modern headlines - from vampire lore and Brahms's Lullaby to Instagram - Thompson explores the economics and psychology of why certain things become extraordinarily popular. With incisive analysis and captivating storytelling, he reveals that, though blockbuster films, Internet memes and number-one songs seem to have come out of nowhere, hits actually have a story and operate by certain rules. People gravitate towards familiar surprises: products that are bold and innovative, yet instantly comprehensible. Whether he is uncovering the secrets of JFK and Barack Obama's speechwriters or analysing the unexpected reasons for the success of *Fifty Shades of Grey*, Thompson goes beyond the cultural phenomena that make the news by revealing the desires that make us all human. While technology might change, he shows, our innate preferences do not, and throughout history hits have held up a mirror to ourselves. From the dawn of Impressionist art to the future of Snapchat, from small-scale Etsy entrepreneurs to the origin of Star Wars, Derek Thompson tells the fascinating story of how culture happens - and where genius lives.

Going Postal Terry Pratchett, 2008-10-09 'Always push your luck because no one else would push it for you.' Imprisoned in Ankh-Morpork, con artist Moist von Lipwig is offered a choice: to be executed or to accept a job as the city's Postmaster General. It's a tough decision, but he's already survived one hanging and isn't in the mood to try it again. The Post Office is down on its luck: beset by mountains of undelivered mail, eccentric employees, and a dangerous secret order. To save his skin, Moist will need to restore the postal service to its former glory, with the help of tough talking activist Adora Belle Dearheart. Who happens to be very attractive, in an 'entire womanful of anger' kind of way. But there's new technology to compete against and an evil chairman who will stop at nothing to delay Ankh-Morpork's post for good . . . 'One of the best expressions of his unstoppable flow of comic invention' The Times Going Postal is the first book in the Moist von Lipwig series, but you can read the Discworld novels in any order.
