Austria Company Laws and Regulations Handbook Volume 1 Strategic Information and Basic Laws IBP, Inc.,2012-09-09 Four interlocking narratives unfurl in four American cities, creating a richly comic feast about love, academia, an elusive Tibetan novelist who might be a plagiarist, and SOFA, a protest group so mysterious its very initials are open to interpretation. Bad Teeth follows a cast of young literary men and women in four very American cities—Brooklyn, Bloomington, Berkeley, and Bakersfield. It's four (or more) books in one, a Pynchonesque treat: a bohemian satire, a campus comedy, a stoner's reverie, and a quadruple love story. Its wonderfully evoked storylines of young writers—each in a period of formation—collect around the search for one mysterious author—the Tibetan David Foster Wallace, who might in fact be a plagiarist.This delightful and complex literary novel is a comic gem.

Cross-cultural Genre Analysis Danni Yu,2021-12-15 This unique monograph provides a theoretical and methodological account on how to do cross-cultural genre analysis with the aids of corpus tools. Cross-cultural genre analysis investigates how discourse communities from different cultural backgrounds use language to realize a particular genre. It can shed light on genre nature as well as cultural specificities. The book suggests five specific approaches in doing cross-cultural genre analysis: Investigating genre context; Approaching genre complexity; Exploring genre nature; Exploring culture specificity; and Focusing on specific communicative functions. Each of these approaches is illustrated and demonstrated in a specific chapter with practical analyses of the genre of CSR reports. Covering linguistic analysis of CSR reports in three languages: Chinese, English and Italian, Yu provides insights into implications for both genre theories and CSR communication practice. By applying the cross-cultural perspective in corporate discourse analysis, her book demonstrates how the approach of cross-cultural genre analysis is fruitful and valuable in providing practical insights into the textual practice of CSR reporting in a globalized context. Moreover, in the final parts of the book, Yu illustrates how cross-cultural genre analysis can be applied in the didactic field of writing, translation and cross-cultural studies. This volume is a valuable reference to scholars of genre analysis, corpus-based studies, cross-cultural studies and corporate communication. Moreover, it is also useful for professionals involved in compiling CSR reports. Armed with the knowledge imparted in this book, the reader should be able to analyze other genres from a cross-cultural perspective. In particular, instructions on how to use specific corpus tools are provided in the appendices, which can give scholars basic technical knowledge to approach the field of cross-cultural genre analysis.
