The Billionaire's Apprentice Anita Raghavan,2013-06-04 Just as WASPs, Irish-Catholics and Our Crowd Jews once made the ascent from immigrants to powerbrokers, it is now the Indian-American's turn. Citigroup, PepsiCo and Mastercard are just a handful of the Fortune 500 companies led by a group known as the Twice Blessed. Yet little is known about how these Indian emigres (and children of emigres) rose through the ranks. Until now... The collapse of the Galleon Group--a hedge fund that managed more than \$7 billion in assets--from criminal charges of insider trading was a sensational case that pitted prosecutor Preet Bharara, himself the son of Indian immigrants, against the best and brightest of the South Asian business community. At the center of the case was self-described King of Kings, Galleon's founder Raj Rajaratnam, a Sri-Lankan-born, Wharton-educated billionaire. But the most shocking allegation was that the éminence grise of Indian business, Rajat Gupta, was Rajaratnam's accomplice and mole. If not for Gupta's nose-to-the-grindstone rise to head up McKinsey & Co and a position on the Goldman Sachs board, men like Rajaratnam would have never made it to the top of America's moneyed elite. Author Anita Raghavan criss-crosses the globe from Wall Street boardrooms to Delhi's Indian Institute of Technology as she uncovers the secrets of this subculture--an incredible tale of triumph, temptation and tragedy.

A Shepherd to Fools Drew Mendelson,2021-08-12 A Shepherd to Fools is the second of Drew Mendelson's trilogy of Vietnam War novels that began with Song Ba To and will conclude with Poke the Dragon. Shepherd: It is the ragged end of the Vietnam war. With the debacle of a failing South Vietnamese invasion of Northern Laos as background, A Shepherd to Fools tells the harrowing tale of a covert Hatchet Team of US soldiers and Montagnard mercenaries. They are ordered to find and capture or kill a band of American deserters, called Longshadows, before the world learns of their paralyzing rebellion. An earlier attempt to capture them failed disastrously, the facts of it buried. Captain Hugh Englander commands the Hatchet Team. He is a humorless bastard, sneering and discourteous to every regular army soldier. He cares little for the welfare of his own men and nothing for the lives of the deserters. The conflict between him and Captain David Weisman, the artillery officer assigned to the mission for artillery support, threatens to tear the team apart. Deep in the Laotian jungle, the team is caught in a final, horrific battle facing an enemy armed with Sarin nerve gas, the "worst of the worst" of the war's clandestine weapons.

How to Avoid a Climate Disaster Bill Gates, 2021-02-16 #1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

Fortunately, Pogue Press/O'Reilly is once again ready to embrace the befuddled and overwhelmed—with

End-to-end Integration with IBM Sterling B2B Integration and Managed File Transfer solutions James Ballentine, Claudemir Braghirolli, Vasfi Gucer, Rahul Gupta, James B Herry, Richard Kinard, Gianluca Meloni, Bala Sivasubramanian, Eduardo Ribeiro de Souza, Frank Strecker, Gang Yin, IBM Redbooks, 2012-07-21 Across numerous vertical industries, enterprises are challenged to improve processing efficiency as transactions flow from their business communities to their internal systems and vice versa, simplify management and expansion of the external communities, accommodate customer and supplier preferences, govern the flow of information, enforce policy and standards, and protect sensitive information. Throughout this process, external partners must be on-boarded and off-boarded, information must flow across multiple communications infrastructures, and data must be mapped and transformed for consumption across multiple applications. Some transactions require synchronous or real-time processing while others are of a more periodic nature. For some classes of customer or supplier, the enterprise might prefer a locally-managed, on-premise solution. For some types of communities (often small businesses), an as-a-Service solution might be the best option. Many large enterprises combine the on-premise and as-a-Service approach to serve different categories of business partners (customers or suppliers). This IBM® Redbooks® publication focuses on solutions for end-to-end integration in complex value chains and presents several end-to-end common integration scenarios with IBM Sterling and IBM WebSphere® portfolios. We believe that this publication will be a reference for IT Specialists and IT Architects implementing an integration solution architecture involving IBM Sterling and IBM WebSphere portfolios.
