Transforming Residential Interventions Beth Caldwell, Robert Lieberman, Janice LeBel, Gary M. Blau, 2020-01-28

Transforming Residential Interventions: Practical Strategies and Future Directions captures the emerging changes, exciting innovations, and creative policies and practices informing ground-breaking residential programs. Building on the successful 2014 publication Residential Interventions for Children, Adolescents, and Families, this follow-up volume provides a contemporary framework to address the needs of young people and their families, alongside practical strategies that can be implemented at the program, community, system, and policy levels. Using the Building Bridges Initiative as a foundation, the book serves as a how-to manual for making bold changes to residential interventions. The reader will learn from a range of inspired leaders who, rather than riding the wave of change, jumped in and created the wave by truly listening to and partnering with their youth, families, advocates, and staff. Chapters provide real-time practice examples and specific strategies that are transformational and consider critical areas, such as family and youth voice, choice and roles, partnerships, permanency and equity, diversity, and inclusion. These methods benefit youth with behavioral and/or emotional challenges and their families and will improve an organization's long-term outcomes and fiscal bottom line. This book is for oversight agencies, managed care companies, providers of service, advocates, and youth/family leaders looking for an exemplar guide to the new frontier of residential intervention. In this era of accountability and measurement, it will become a trusted companion in leading residential interventions to improved practices and outcomes.

Featuring an expanded array of tempting recipes of indigenous ingredients and practical advice about health, fitness, and becoming involved in the burgeoning indigenous food sovereignty movement, the acclaimed Choctaw author and scholar Devon A. Mihesuah draws on the rich indigenous heritages of this continent to offer a helpful guide to a healthier life. Recovering Our Ancestors' Gardens

features pointed discussions about the causes of the generally poor state of indigenous health today. New recipes feature pawpaw sorbet, dandelion salad, lima bean hummus, cranberry pie with cornmeal crust, grape dumplings, green chile and turkey posole, and blue corn pancakes, among other dishes. Savory, natural, and steeped in the Native traditions of this land, these recipes are sure to delight and satisfy. This new edition is revised, updated, and contains new information, new chapters, and an extensive curriculum guide that includes objectives, resources, study questions, assignments, and activities for teachers, librarians, food sovereignty activists, and anyone wanting to know more about indigenous foodways.

Conjugate Divergent Margins Webster Mohriak, Al Danforth, Paul J. Post, G. C. Tari, Michal Nemčok, Sudipta T. Sinha, 2013 The main focus of the book is the geological and geophysical interpretation of sedimentary basins along the South, Central and North Atlantic conjugate margins, but concepts derived from physical models, outcrop analogues and present-day margins are also discussed in some chapters. There is an encompassing description of several conjugate margins worldwide, based on recent geophysical and geological datasets. An overview of important aspects related to the geodynamic development and petroleum geology of Atlantic-type sedimentary basins is also included. Several chapters analyse genetic mechanisms and break-up processes associated with rift-phase structures and salt tectonics, providing a full description of conjugate margin basins based on deep seismic profiles and potential field methods.--

Making a Mark Andrew Meirion Jones,Marta Díaz-Guardamino,2019-03-31 The visual imagery of Neolithic Britain and Ireland is spectacular. While the imagery of passage tombs, such as Knowth and Newgrange, are well known the rich imagery on decorated portable artefacts is less well understood. How does the visual imagery found on decorated portable artefacts compare with other Neolithic imagery, such as passage tomb art and rock art? How do decorated portable artefacts relate chronologically to other examples of Neolithic imagery? Using cutting edge digital imaging techniques, the Making a Mark project examined Neolithic decorated portable artefacts of chalk, stone, bone, antler, and wood from three key regions: southern England and East Anglia; the Irish Sea region (Wales, the Isle of Man and eastern Ireland); and Northeast Scotland and Orkney. Digital analysis revealed, for the first time, the prevalence of practices of erasure and reworking amongst a host of decorated portable artefacts, changing our understanding of these enigmatic artefacts. Rather than mark making being a peripheral activity, we can now appreciate the central importance of mark making to the formation of Neolithic communities across Britain and Ireland. The volume visually documents and discusses the contexts of the decorated portable artefacts from each region, discusses the significance and chronology of practices of erasure and reworking, and compares these practices with those found in other Neolithic contexts, such as passage tomb art, rock art and pottery decoration. A contribution from Antonia Thomas also discusses the settlement art and mortuary art of Orkney, while Ian Dawson and Louisa Minkin contribute with a discussion of the collaborative fine art practices established during the project.
