Crime and Criminal Justice Stacy L. Mallicoat,2018-12-06 “The text is logically organized and easy to read and understand. Students will find the text intriguing as they move through the coverage of the controversies from the text.” —Michelle L. Foster, Kent State University Updated with new content and current controversies that facilitate critical thinking, debate, and application of the concepts, Stacy L. Mallicoat’s *Crime and Criminal Justice*, Second Edition, provides you with accessible and concise coverage of all relevant aspects of the criminal justice system, as well as unique chapters on victims and criminal justice policy. Using an innovative format designed to increase student engagement and critical thinking, each chapter is followed by two Current Controversy debates that dive into a critical issue in criminal justice. These features challenge misconceptions by providing a balanced debate of both the pros and the cons of each issue and are followed by probing questions to help you think critically about timely topics. With contemporary examples that you can easily apply and a broad range of effective learning tools, this practical text helps you go beyond the surface toward a deeper understanding of the criminal justice system. New to the Second Edition: Nearly 50% of the Current Controversy essays have been updated to expand your engagement and critical thinking skills by exploring the pros and cons of key issues in criminal justice, such as Is the Media a Credible Source on Crime?, Should the United States Increase Its Laws About Gun Control?, and Are Colleges and Universities the Best Place to Respond to Campus Sexual Assault? New Spotlight boxes provide additional examples to engage you and inform you about important topics, such as Sexual Harassment in Hollywood, Mandatory Arrest Policies, Lynching and Mass Incarceration, Michelle Carter, and The Boston Marathon Bombings. Some boxes include critical thinking questions that will help you apply the material and make important connections. New content enables you to explore crucial topics in today’s field, such as feminist criminology, the juvenile justice process, transnational crime, and the policies of the Trump administration. Updated statistics, graphs, and tables demonstrate to you the most recent data and trends in criminal justice.

The Oxford Handbook of Offender Decision Making Wim Bernasco,Henk Elffers,Jean-Louis van Gelder,2017-05-08 Although the issue of offender decision-making pervades almost every discussion of crime and law enforcement, only a few comprehensive texts cover and integrate information about the role of decision-making in crime. The Oxford Handbook of

Offender Decision Making provide high-quality reviews of the main paradigms in offender decision-making, such as rational choice theory and dual-process theory. It contains up-to-date reviews of empirical research on decision-making in a wide range of decision types including not only criminal initiation and desistance, but also choice of locations, times, targets, victims, methods as well as large variety crimes including homicide, robbery, domestic violence, burglary, street crime, sexual crimes, and cybercrime. Lastly, it provides in-depth treatments of the major methods used to study offender decision-making, including experiments, observation studies, surveys, offender interviews, and simulations. Comprehensive and authoritative, the Handbook will quickly become the primary source of theoretical, methodological, and empirical knowledge about decision-making as it relates to criminal behavior.

Gender, Crime, and Justice Erin Katherine Krafft,Jo-Ann Della Giustina,Susan T. Krumholz,2021-12-09 Gender, Crime, and Justice is a unique core textbook that introduces key concepts through case studies. Each chapter opens with a compelling case study that illustrates key concepts, followed by a narrative chapter that builds on the case study to introduce essential elements. Each chapter features pedagogical elements—learning objectives, key terms, review and study questions, and suggestions for further learning and exploration. In addition to the unique case study approach, this book is distinctive in its inclusion of LGBTQ experiences in crime, victimization, processing, and punishment. Gender, Crime, and Justice also addresses masculinity and the role it plays in defining offenders and victims, as well as challenges posed by the gender gap in offending.

Offender Supervision Fergus McNeill,Peter Raynor,Chris Trotter,2012-08-06 This major new book brings together leading researchers in the field in order to describe and analyse internationally significant theoretical and empirical work on offender supervision, and to address the policy and practice implications of this work within and across jurisdictions. Arising out of the work of the international Collaboration of Researchers for the Effective Development of Offender Supervision (CREDOS), this book examines questions and issues that have arisen both within effectiveness research, and from research on desistance from offending. The book draws out the lessons that can be learned not just about ‘what works?’, but about how and why particular practices support desistance in specific jurisdictional, cultural and local contexts. Key themes addressed in this book include: New directions in theory and paradigms for practice Staff skills and effective offender supervision Different issues and challenges in improving offender supervision The role of families, ‘significant others’ and social networks Understanding and supporting compliance within supervision Exploring the social, political, organisational and historical contexts of offender supervision Offender Supervision will be essential reading for academics, undergraduate and postgraduate students, policy makers, managers and practitioners interested in offender supervision.

Counseling Criminal Justice Offenders Ruth E. Masters,2021-04-13 Excellent book, the best I have read. —John McCulloch, South Hills Business School Counseling Criminal Justice Offenders, Second Edition takes a practical view of

offenders, their problems, and the difficulties counselors face working with them in criminal justice settings. Author Ruth E. Masters examines criminal justice counseling on an individual and group basis and in a variety of settings such as prisons, probation and parole agencies, diversion programs, group homes, halfway houses, prerelease facilities, and U.S. jails. The book also explores the many faces of offenders — young, old, male, female, and across many cultures. The Second Edition of *Counseling Criminal Justice Offenders* recognizes that individuals who counsel offenders in the criminal justice system often have not had the extensive training of a licensed psychologist and this text is designed to provide readers with an understanding of the counseling process. The book explores practical knowledge of legal principles, appropriate and effective counselor attitudes, and the past and present protocols of American corrections. Features and Benefits: Each chapter begins with Chapter Highlights and Key Terms and ends with corresponding exercises and discussion questions. A section at the end of each chapter lists relevant Internet sites and suggested readings. The book includes Counselor/Offender role-play scenarios that prepare students for situations such as how to restore order over a group counseling session, handle their own personal feelings about an offender, and much more. An Instructor's Manual including test items and skill-building exercises is available. New to the Second Edition: Chapters have been reorganized to emphasize the importance of counselors creating an alliance with offenders. Discussions have been updated on topics such as multicultural counseling, counseling victims, counseling paraprofessionals, cognitive-behavioral counseling, multimodal counseling, brief counseling, and counseling outcome effectiveness. New chapters have been added on counseling criminal psychopaths, the role of emotions in the counseling process, counseling male and female offenders, and the relationship between trauma, addiction, and human behavior. Primarily designed for criminal justice students taking correctional counseling courses, *Counseling Criminal Justice Offenders*, Second Edition is also a vital resource for any Criminal Justice, Social Work, Psychology, or Counseling practitioner interfacing with offenders.

Young Criminal Lives: Life Courses and Life Chances from 1850 Barry Godfrey, Pamela Cox, Heather Shore, Zoe Alker, 2017-10-26 *Young Criminal Lives* is the first cradle-to-grave study of the experiences of some of the thousands of delinquent, difficult and destitute children passing through the early English juvenile reformatory system. The book breaks new ground in crime research, speaking to pressing present-day concerns around child poverty and youth justice, and resonating with a powerful public fascination for family history. Using innovative digital methods to unlock the Victorian life course, the authors have reconstructed the lives, families and neighbourhoods of 500 children living within, or at the margins of, the early English juvenile reformatory system. Four hundred of them were sent to reformatory and industrial schools in the north west of England from courts around the UK over a fifty-year period from the 1860s onwards. *Young Criminal Lives* is based on one of the most comprehensive sets of official and personal data ever assembled for a historical study of this kind. For the first time, these children can be followed on their journey in and out of reform and then through their adulthood and

old age. The book centres on institutions celebrated in this period for their pioneering new approaches to child welfare and others that were investigated for cruelty and scandal. Both were typical of the new kind of state-certified provision offered, from the 1850s on, to children who had committed criminal acts, or who were considered 'vulnerable' to predation, poverty and the 'inheritance' of criminal dispositions. The notion that interventions can and must be evaluated in order to determine 'what works' now dominates public policy. But how did Victorian and Edwardian policy-makers and practitioners deal with this question? By what criteria, and on the basis of what kinds of evidence, did they judge their own successes and failures? *Young Criminal Lives* ends with a critical review of the historical rise of evidence-based policy-making within criminal justice. It will appeal to scholars and students of crime and penal policy, criminologists, sociologists, and social policy researchers and practitioners in youth justice and child protection.

Criminal Careers and "Career Criminals," National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Research on Law Enforcement and the Administration of Justice, Panel on Research on Criminal Careers, 1986-02-01 By focusing attention on individuals rather than on aggregates, this book takes a novel approach to studying criminal behavior. It develops a framework for collecting information about individual criminal careers and their parameters, reviews existing knowledge about criminal career dimensions, presents models of offending patterns, and describes how criminal career information can be used to develop and refine criminal justice policies. In addition, an agenda for future research on criminal careers is presented.

Crime Prevention Steven P. Lab, 2013-03-06 This book examines several types of crime prevention approaches and their goals, including those that are designed to prevent conditions that foster deviance, those directed toward persons or conditions with a high potential for deviance, and those for persons who have already committed crimes. This edition provides research and information on all aspects of crime prevention, including the physical environment and crime, neighborhood crime prevention, the mass media and crime prevention, crime displacement and diffusion, prediction, community policing, drugs, schools, and electronic monitoring and home confinement.

Education and Delinquency Institute of Medicine, National Research Council, Commission on Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Law and Justice, Panel on Juvenile Crime: Prevention, Treatment, and Control, 2000-10-04 The Panel on Juvenile Crime: Prevention, Treatment, and Control convened a workshop on October 2, 1998, to explore issues related to educational performance, school climate, school practices, learning, student motivation and commitment to school, and their relationship to delinquency. The workshop was designed to bring together researchers and practitioners with a broad range of perspectives on the relationship between such specific issues as school safety and academic achievement and the development of delinquent behavior. *Education and Delinquency* reviews recent research findings, identifies gaps in knowledge and promising areas of future research, and discusses the

need for program evaluation and the integration of empirical research findings into program design.

The Harms of Crime Media Denise L. Bissler, Joan L. Connors, 2014-01-10 A scan of today's television programming reveals numerous media stories, factual and fictional, featuring some aspect of crime. These depictions can stray far from reality, with the effect of creating and reinforcing distorted impressions. This collection offers a sociological analysis of race, class, and gender stereotypes within crime media. Essays discuss particular examples of inequalities and stereotypes, consider the implications of such portrayals, and demonstrate how they influence the public's expectations and beliefs about real-world crime.

The Matrix of Race Rodney D. Coates, Abby L. Ferber, David L. Brunsma, 2017-09-25 The Matrix of Race, for race and ethnic relations courses, is written by three leading scholars -- Rodney D. Coates, David L. Brunsma, and Abby L. Ferber -- and reflects a very contemporary way of looking at race, minorities, and intergroup relations. Older texts use a categorical approach and feature a series of chapters that examine one minority group at a time (African Americans, Latino/a Americans, Asian Americans, Native Americans, etc.). Newer texts designed within the last 5-10 years are more likely to be organized topically, discuss various racial and ethnic minorities within the context of these topics, and use the most current theories and perspectives in this field. The Matrix of Race is built around these core ideas: -Race is both a social construction and a social institution -Race is intersectional-it is embedded within other statuses (such as gender, social class, sexuality) - Concepts of race change over time and as we move from one physical location to another -We are all active agents in upholding, reproducing, or resisting constructions of race.

Hate and Bias Crime Barbara Perry, 2012-11-12 Covering everything from hate groups and extremist exploits to Black church arsons and the fall out violence from 9/11; this is an important collection that sheds much-needed light on this growing problem.

Race, Gender, Sexuality, and Social Class Susan J. Ferguson, 2013 Race, Gender, Sexuality, and Social Class: Dimensions of Inequality, edited by renowned researcher and scholar Susan Ferguson, presents a contemporary and compelling overview of race, ethnicity, gender, and social class issues in the United States today. Taking an intersectional approach, the book is organized topically, rather than focusing on specific race/ethnic subgroups. The content is framed around the themes of identity, experiences of race, class, gender or sexuality, difference, inequality, and social change or personal empowerment, with historical context threaded throughout to deepen the reader's understanding. With engaging readings and cutting-edge scholarship the collection is not only refreshingly contemporary but also relevant to students' lives.

Encyclopedia of Community Policing and Problem Solving Kenneth J. Peak, 2013-05-28 Community policing, as a philosophy, supports the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues, including crime, social disorder, and fear of crime—as opposed to responding to crime after it occurs. Community policing expands the traditional police mandate. It broadens the focus of fighting crime to include solving community problems and forming partnerships with people in the community so average citizens can contribute to the policing process. Originating during police reform efforts of the 1970s, the philosophy of community policing is currently widespread and embraced by many citizens, police administrators, scholars, and local and federal politicians. What sorts of collaborative partnerships have evolved between policing agencies and the individuals and communities they serve? How do police departments engage in systematic examination of identified problems to develop effective responses? How have police departments aligned their organizational structures to best support community partnerships and proactive problem solving? Just how effective have efforts at community policing been? These questions and more are explored within the pages of this new reference work. Features: A collection of 150 to 175 entries are organized in A-to-Z fashion in one volume available in both electronic and print formats. Signed entries, authored by significant figures in the field, each conclude with Cross-References and Suggestions for Further Readings to guide students to in-depth resources. Brief What Works case studies within appropriate entries profile community policing programs and strategies as tried in various cities and communities. Although organized in A-to-Z fashion, a thematic Reader's Guide in the front matter groups related entries by broad topic areas (e.g., Foundations; Methods & Practices; Legislation & National Organizations; Changing Agency Culture; Planning & Implementation; Training & Curriculum; Assessment & Evaluation; etc.). Also included in the front matter, a Chronology provides students with historical perspective of the development of community policing. The entire work concludes with a Resources appendix listing classic books, journals, and associations, followed by a comprehensive Index.

Youth Employment and Training Programs National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Youth Employment Programs, 1985-02-01 Do government-sponsored youth employment programs actually help? Between 1978 and 1981, the Youth Employment and Demonstration Projects Act (YEDPA) funded extensive programs designed to aid disadvantaged youth. The Committee on Youth Employment Programs examined the voluminous research performed by YEDPA and produced a comprehensive report and evaluation of the YEDPA efforts to assist the underprivileged. Beginning with YEDPA's inception and effective lifespan, this report goes on to analyze the data it generated, evaluate its accuracy, and draw

conclusions about which YEDPA programs were effective, which were not, and why. A discussion of YEDPA strategies and their perceived value concludes the volume.

Crime, Prisons, and Jails Kim Masters Evans, Evans, Information Plus, 2011 Focuses on the social and moral issues surrounding crime, prisons, and jails.

Crime and Criminal Justice in America Joycelyn Pollock, 2017-02-17 This text offers a concise, affordable and reader-friendly introduction to the criminal justice system. It explores the system in four sections: the criminal justice system as social control, law enforcement as social control, the law as social control, and corrections as social control.

Social Work and Social Welfare Katherine van Wormer, Rosemary J. Link, 2018-03-28 Unique in its use of a human rights framework, *Social Work and Social Welfare* goes beyond American borders to examine U.S. government policies-including child welfare, social services, health care, and criminal justice-within a global context. Guided by the belief that forces from the global market and predominant political ideologies affect all social workers in their practice, the book addresses a wide range of relevant topics, including the refugee journey, the impact of new technologies, war trauma, environmental justice, and restorative justice. As a general textbook, the content is organized to follow outlines for basic, introductory, and more advanced courses examining social welfare programs, policies, and issues.
