Developing Narrative Comprehension Ute Bohnacker,Natalia Gagarina,2020-12-15 Comprehension of texts and understanding of questions is a cornerstone of successful human communication. Whilst reading comprehension has been thoroughly investigated in the last decade, there is surprisingly little research on children's comprehension of picture stories, particularly for bilinguals. This can be partially explained by the lack of cross-culturally robust, cross-linguistic instruments targeting early narration. This book presents an inference-based model of narrative comprehension and a tool that grew out of a large-scale European project on multilingualism. Covering a range of language settings, the book uses the Multilingual Assessment Instrument for Narratives to answer the question which narrative comprehension skills (bilingual) children can be expected to master at a certain age, and explores how such comprehension is affected (or not affected) by linguistic and extra-linguistic factors. Linking theory to method, the book will appeal to researchers in linguistics and psychology and graduate students interested in narrative, multilingualism, and language acquisition.

Diagnostic Report Writing In Speech-Language Pathology Steven Blaustein,2024-06-01 Designed to improve the report writing skills of speech-language pathology students, communication sciences and disorders students, Clinical Fellows, and professionals alike, Diagnostic Report Writing in Speech-Language Pathology: A Guide to Effective Communication is a one-of-a-kind text entirely dedicated to the production of an effective diagnostic speech and language evaluation. In today's academic and health care climate, accurate and clear documentation has never been more important. Diagnostic Report Writing in Speech-Language Pathology seeks to demystify and simplify the challenges many students and clinicians face while learning to write speech and language evaluations by combining the science and art of assessment with

an effective presentation. Dr. Steven H. Blaustein uses his more than 50 years of experience as a clinician, consultant, and professor to logically guide the reader through the necessary steps involved in the documentation of a speech and language evaluation. From discussing the initial reason for the referral and case history to the final summary, impressions, and recommendations, each step of the writing process is clearly explained. Topics included in *Diagnostic Report Writing in Speech-Language Pathology: A Guide to Effective Communication* includes: Speech sound production Oral peripheral examinations Issues of law, fairness, and ethics Critical information for the approval of services and third-party reimbursement Common report writing errors to avoid Images and tables to illustrate the process of documenting a speech and language evaluation There is no one-size-fits-all template for documenting an evaluation. *Diagnostic Report Writing in Speech-Language Pathology: A Guide to Effective Communication* provides the reader with the skills and knowledge necessary to compile an effective professional report that meets the needs of patients, clients, students, and outside stakeholders.

Research Methods for Understanding Child Second Language Development Yuko Goto Butler,Becky H. Huang,2022-09-15 Butler and Huang's book is one of the first to focus on second language (L2) development research methods and techniques specifically targeted at children of primary and pre-primary years. The last decade has seen a growing number of L2 studies of children aged 4-12, a demographic with special developmental characteristics that confound research methods designed for studying adults. Written by experts from a variety of disciplines, this book covers major research methods and techniques in existing L2 development research, including observations, surveys, interviews, introspective methods, speech production methods, receptive methods, eye tracking, and brain imaging, as well as research methods specifically designed for L2 children with special educational needs. The book also discusses various age-related considerations and challenges if they are employed to young L2 learners. This will be essential reading for SLA, child development, and TESOL researchers, and students in these courses will benefit particularly from pedagogical material such as further readings and discussion questions.

A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology Cyndi Stein-Rubin,Renee Fabus,2024-06-01 Learning to assess speech and language disorders and write diagnostic reports may be an overwhelming experience, especially when most texts don't cover both topics at once. With that in mind, *A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology, Second Edition* combines the latest assessment protocols and diagnostic techniques with vital diagnostic report writing tools into a single definitive guide. Cyndi Stein-

Rubin, Renee Fabus, and their contributors recognize that clinical assessment is inextricably linked to report writing and have updated this Second Edition to synthesize the two. Following the introductory chapters, which discuss the basics of assessment and report writing, each subsequent chapter focuses on a particular disorder, provides in-depth assessment tools, and presents a corresponding sample report. Key Features: An inventory and explanation of formal and informal assessment measures A glossary of key vocabulary Sample case histories with assessment tools Relevant and useful interview questions Each disorder's background and characteristics Assessment parameters A differential diagnosis section A model report The accessible format of A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology, Second Edition will help students learn how to assess and document speech and language disorders and will also make for a perfect reference for them as clinicians for years to come.

Reading Assessment Melissa Lee Farrall, 2012-06-05 A groundbreaking integrated approach to reading assessment that addresses each child's unique Learning Profile Fifteen to twenty percent of our nation's children have reading difficulties. Educational evaluators must be able to use progress monitoring and diagnostic tools effectively to identify students who may be at risk, evaluate the effectiveness of school-wide reading programs, and suggest interventions that will improve reading skills. Written from a strengths-based perspective, Reading Assessment: Linking Language, Literacy, and Cognition is the first book of its kind to present a research-based, integrated review of reading, cognition, and oral language testing and assessment. Author Melissa Lee Farrall explores the theoretical underpinnings of reading, language, and literacy, explains the background of debates surrounding these topics, and provides detailed information and administration tips on the wide range of reading inventories and standardized tests that may be used in a reading psychoeducational assessment. With a focus on how to craft professional evaluation reports that illuminate a student's strengths—not just weaknesses—Reading Assessment enables school psychologists and diagnosticians, reading specialists, and special education professionals to conduct evaluations and develop effective interdisciplinary remedial recommendations and interventions. Clear, engaging, and inviting, Reading Assessment features: Case examples and practice exercises Chapter-opening reviews of each theory Strengths, weaknesses, and potential problems of tests and their interpretations Chapter-ending review questions that foster skill development and critical thinking Comprehensive information on more than 50 different assessment tests Reading Assessment is an invaluable resource that helps professionals gain the knowledge and skills to confidently interpret test results and prepare detailed and effective evaluation reports designed to meet each child's unique needs as a learner.

Narrative Thought and Narrative Language Bruce K. Britton, Anthony D. Pellegrini, 2014-02-25 Since before the dawn of history, people have been telling stories to each other and to themselves. Thus stories are at the root of human experience. This volume describes empirical investigations by Jerome Bruner, Wallace Chafe, David Olson, and others on the relationship between stories and cognition. Using philosophical, linguistic, anthropological, and psychological perspectives on narrative, the contributors provide a definitive, highly diversified portrait of human cognition.

Understanding Language Testing Dan Douglas, 2014-03-18 Understanding Language Testing presents an introduction to language tests and the process of test development that starts at the very beginning. Assuming no knowledge of the field, the book promotes a practical understanding of language testing using examples from a variety of languages. While grounded on solid theoretical principles, the book focuses on fostering a true understanding of the various uses of language tests and the process of test development, scoring test performance, analyzing and interpreting test results, and above all, using tests as ethically and fairly as possible so that test takers are given every opportunity to do their best, to learn as much as possible, and feel positive about their language learning. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics and language education, or anyone in a related discipline looking for a first introduction to language testing.

Test of Language Development-2 Donald D. Hammill, 1988 Measures language skills in the areas of both listening and speaking, including visual and oral vocabulary, word articulation and discrimination, grammar, and comprehension. Primary for children ages 4 to 8, intermediate for ages 8 to 12.

The Rossetti Infant-toddler Language Scale Louis Michael Rossetti, 2006 The Rossetti Infant-Toddler Language Scale is designed to provide the clinician with a comprehensive, easy-to-administer, and relevant tool to assess the preverbal and verbal aspects of communication and interaction in the young child. The Rossetti Infant-Toddler Language Scale is a criterion referenced instrument that assesses Interaction-Attachment, Pragmatics, Gesture, Play, Language Comprehension, and Language Expression. Behaviors can be directly elicited from the child, directly observed, or reported by parent or caregiver to credit the child's performance. All carry equal weight when scoring the scale. Results reflect the child's mastery of skills in each of the areas assessed at three-month intervals across developmental domains tested. The test items guide you in directing and structuring observations in order to monitor the child's progress in language developmental areas. The items are based on a compilation of author observation and descriptions from developmental hierarchies and behaviors recognized and used by leading authorities in the field of infant-toddler assessment. Only items considered discriminating and representative of a skill at an age were included. Severity rating guidelines help you interpret the results and confidently communicate the severity of the child's delay. Parent Questionnaire and report questions are in English and Spanish, found on the CD-ROM for quick printing.
